W 368	<p><b>DRUG ADMINISTRATION</b> CFR(s): 483.460(k)(1)</p> <p>The system for drug administration must assure that all drugs are administered in compliance with the physician's orders.</p> <p>This STANDARD is not met as evidenced by: Based on observations, record reviews and interviews, the facility failed to assure all medications were given as per doctor's orders. This affected 1 of 6 clients (#2) residing in the facility. The finding is:</p> <p>Client #2 did not get his medication with a meal as ordered.</p> <p>During observations of the medication administration pass on 5/28/19 at 4:35pm, client #2 received his medication (Amitiza 24mg) with less than a tablespoonful of pudding. He then did not eat dinner until 6:00pm.</p> <p>Review on 5/28/19 of the physician's order for the period of 4/4/19-7/2/19 signed by the physician on 4/2/19 revealed client #2 should take Amitiza 24mg 1 tab PO BID with a meal.</p> <p>Interview on 5/28/19 with the qualified intellectual disabilities professional (QIDP) confirmed the doctor's orders noted with a meal and he contacted the nurse who also confirmed the order to him. He stated that client #2 receives the same medication with crackers in the morning but not with a meal.</p>	W 368

TITLE

(X6) DATE

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

W 369	Continued From page 1 that all drugs, including those that are self-administered, are administered without error.  This STANDARD is not met as evidenced by: Based on observations, record reviews and interviews, the facility failed to assure all medications were given without error. This affected 1 of 3 audit clients (#1). The finding is:  Client #1's medication was given at the wrong time.  During observations of the medication administration pass on 5/29/19 at 6:25am, client #1 was given Cymbalta (Duloxetine) 60 mg.  Review on 5/29/19 of the physician's orders for the period of 4/4/19-7/2/19 signed by the doctor on 4/2/19 revealed an order for Cymbalta 60mg 1 tab PO q HS (hour of sleep.)  Interview on 5/29/19 with staff D revealed she has always given this medication at this time. However, she could only reveal one order from the bulletin board dated 10/10/18 which noted 30mg of Cymbalta should be given in the mornings.  Interview on 5/29/19 with the qualified intellectual disabilities professional (QIDP) revealed the 10/10/18 order is not the last order. He seemed fairly certain the Cymbalta 60mg is to be given in the morning but confirmed the order says to give in the evening (HS).	W 369

W 383	<p>Continued From page 2</p> <p>Only authorized persons may have access to the keys to the drug storage area.</p> <p>This STANDARD is not met as evidenced by: Based on observations and interviews, the facility failed to assure only authorized personnel have access to the medication area. This potentially affected all individuals residing in the home. The finding is:</p> <p>Th facility failed to assure all individuals in the home could not have access to the medications.</p> <p>Upon observations on 5/28/19 at 4:10pm, staff B went and got keys from a cup in the unlocked cabinet left of the stove and went in the bedroom. She then returned and put the keys back in the cup in the cabinet. At 4:35pm, staff B went and obtained the keys from the kitchen cabinet again and returned to the medication room and gave medications. After giving the medications, she returned and put the keys up in the kitchen cabinet. At 4:45pm, staff B retrieved the keys from the cup in the kitchen again and gave another individual meds. After she was finished she returned the keys at 5:25pm. At 5:50pm, the qualified intellectual disability professional (QIDP) obtained the keys from the cup in the kitchen to go to the medication room.</p> <p>Interview on 5/28/19 with staff B revealed they keep the keys in th cup there because if she put them in her pocket she may end up going home with them. Interview with staff D when asked what she does when she is the medication technician on duty and come s onto shift, revealed she is medication certified and upon arrival of her shift she obtains the key from the cup in the kitchen</p>	W 383

W 383	Continued From page 3 and counts the medications with another shift. She then puts the keys back until it is time to give medications.  Interview on 4/28/19 with the QIDP confirmed they have kept the keys in the cup in the kitchen cabinet. He did not realize this was an issue. When told there was a regulation that states only authorized personnel can have access to the medication area he stated he thinks he remembers that they used to have a combination lock box outside the medication room	W 383
