Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

W 249	PROGRAM IMPLEMENTATION CFR(s): 483.440(d)(1) As soon as the interdisciplinary team has formulated a client's individual program plan, each client must receive a continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan. This STANDARD is not met as evidenced by: Based on observation, record review and interview, the interdisciplinary team failed to assure consistent interventions and services to support the needs identified in the individual support plan (ISP) for 1 of 3 sampled clients (#5) relative to monitoring client behaviors. The findings are: A. The team failed to implement monitoring interventions to address client #5's self-calming needs. Observations in the group home during the 4/29/19 to 4/30/19 survey revealed client #5's bedroom door to have a large, decorative green cloth partially affixed to the outside of his bedroom door. Further observations revealed client #5's bedroom to be tidy and well-maintained. Continued observations of client	W 249

W 249	Continued From page 4 this time, staff did not call 911 to report client #5 was missing but did call facility management to report client #5 was missing. Ongoing review on 4/30/19 of the 8/9/18 incident report revealed the following QIDP comments "Inform QIDP and administrative staff when in community and individual wanders off. Security/police are to be notified immediately." Review on 4/30/19 client #5's BSP dated 9/27/18 (2) wandering guidelines are as follows: Staff must KEEP THEIR EYES ON Client #5 AT ALL TIMES WHILE IN THE COMMUNITY. "If Client #5 wanders off and staff are unable to locate him, staff must immediately contact supervisor who will call 911 while staff continue to look for Client #5". Subsequent review of the record revealed 911 was not called by the supervisor (QIDP) in either incident. Final review of the record revealed client #5 was luckily located and held by store/mall security until group home staff was able to locate and retrieve client #5. Interview on 4/30/19 with the QIDP verified staff should immediately call 911 if client #5 wanders off out of the line of vision, and staff can not locate him immediately. Further interview revealed team meetings were held to address these AWOL incidents. As a result of these meetings, staff has been directed "not to take client #5 to large box stores to prevent further elopement, as these surroundings appear to trigger client #5 to run away from staff." W227 483.440 (c) (4) Individual plan CFR

The individual program plan states the specific objectives necessary to meet the client's needs, as identified by the comprehensive assessment required by paragraph (c)(3) of this section.

Community alternatives of NC, Specifically the Enoch Group Home, will ensure that the individual program plan states the specific objectives necessary to meet the client's needs.

The Clinical Supervisor will create new training program that address the individual's (client #5) vocational needs. Staff will document progress made on this goal daily. Clinical Supervisor and Residential manager will monitor this documentation weekly and the Program Manager will monitor during monthly site reviews.

W 249 483.440 (d) (1) Program implementation

As soon as the interdisciplinary team has formulated a client's individual program plan, each client must receive a continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan.

Community alternatives of NC, Specifically the Enoch Group Home, will ensure that the individual (client #5) receives continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan.

- A. The team has determined that the peephole is no longer needed the BSP has been updated to reflect the removal.
- B. The Clinical Supervisor will in-service the staff on the correct protocol for calling 911 of AWOL behavior occurs.

W460 483.480(a)(1) Food and Nutrition services

Each client must receive a nourishing, well-balanced diet including modified and specially-prescribed diets.

Community alternatives of NC, Specifically the Enoch Group Home, will ensure that each client must receive a nourishing, well-balanced diet including modified and specially-prescribed diets.

The Clinical Supervisor will train staff that for client #2 all food is cut into ¼ inch chopped consistency. Clinical Supervisor and Residential manager will monitor this weekly during meal observations and the Program Manager will monitor during monthly site reviews.

W340 483.460(c)(5)(i) Nursing Services

Nursing services must include implementing with other members of the interdisciplinary team, appropriate protective and preventive health measures that include, but are not limited to training clients and staff as needed in appropriate health and hygiene methods.

Community Alternatives of NC, specifically the Enoch Group Home, will ensure that appropriate protective and preventive health measures that include, but are not limited to training clients and staff as needed in appropriate health and hygiene methods.

The Clinical supervisor will in-service staff in preventative measures to address health and hygiene relative to appropriate glove removal and hand washing. The Clinical Supervisor will ensure during weekly observations the appropriate protective and preventive health measures.
