The findings are: Review on 7/10/19 of Client #1's record revealed: -Admission date of 3/9/11. -Diagnosis of Schizoaffective Disorder. -There was no current treatment plan in client's record. Interview on 7/17/19 with the Qualified Professional/Director revealed: -Clients treatment plan had been completed. -She was unable to locate the treatment plan during the survey. - She identified two documents in client #3's record as the clients treatment plan, however; neither of the two documents had residential goals, strategies, or interventions.
