(X6) DATE

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

W 125	Continued From page 2 that client #5's wheelchair should never be locked in the home to allow her the opportunity to move freely around her home. The QIDP also confirmed that client #5's wheelchair should also be unlocked while at the day program to also allow her to move around in the day program environment. C. Client #5 was not afforded dignity in use of incontinent products. During observations at the day program and at the home on 2/11/2020 client #5's incontinence underwear was exposed and visible to anyone at the day program and at the home. During an interview on 2/11/2020, staff revealed client #6's use of incontinence underwear is due to incontinence of bowel and bladder and she is not able to cover it without staff assistance. Review on 2/12/2020 of client #5's individual program plan (IPP) dated 12/30/19 revealed, "needs full assistance" with toilet. During an interview on 2/12/2020 with the qualified intellectual disabilities professional (QIDP), he confirmed client #6 is incontinent of bowel and bladder and uses disposable diapers. The QIDP also acknowledged the exposure of the diaper in this manner is a violation of client #5's right to dignity and privacy.	W 125	Please see Page 1.

W 189	<p>Continued From page 3</p> <p>The facility must provide each employee with initial and continuing training that enables the employee to perform his or her duties effectively, efficiently, and competently.</p> <p>This STANDARD is not met as evidenced by: Based on observations, interviews and document review, the facility failed to assure staff were sufficiently trained to perform their duties efficiently. This affected 2 clients who were transported while on wheelchair. The finding is:</p> <p>Staff were not sufficiently trained to properly secure wheelchair(s) on the van.</p> <p>During morning observations at the group home on 2/12/2020, staff F prepared and secured client #3 and #5 wheelchairs for transport. The staff secured the wheelchair on the van. The front wheels of the wheelchair were secured by tie down straps attached to each wheel of the wheelchair and wheelchair wheels were not locked in place. The wheelchair had tie down straps secured to each side of the back frame of the wheelchair. The second staff (homemanager) did not double check behind the staff which placed the wheelchair on the van to ensure the wheelchairs were properly secured. The inbuilt Van safety belt were not used to secure the wheelchairs.</p> <p>During interview on 2/12/2020, staff F confirmed the way they secured the wheelchair on the van was the way they were trained to attach the tie down straps to the wheels of the wheelchair.</p> <p>During an interview on 2/12/2020, the group home manager confirmed the wheelchair was not</p>	W 189	<p>This deficiency will be corrected by the following actions:</p> <p>A. The Clinical Supervisor and the Home Manager will train all Direct Support Professionals on CANS Policy C2.22 Transportation to include a demonstration for staff on the proper use of wheelchair tie-downs when transporting the clients. This training will be documented on form F9.8 Inservice/Training Signature Sheet which will be filed in the training binder at the group home.</p> <p>B. The Home Manager will monitor Direct Support Professionals 2x/week for adherence to CANS Policy C2.22 Transportation. W 189	Continued From page 4 secured on the van properly. The staff were not trained to fasten the straps to the wheels of the wheelchair, they are to be fastened to the frame of the wheelchair and the van belt are to be used to secure the wheelchair during transportation. During an interview on 2/20/2020, the qualified intellectual disabilities professional (QIDP) confirmed staff should not have attached the straps to the wheels of the wheelchair, staff were going to be retrained.	W 189	Please see Page 4.		
W 249	PROGRAM IMPLEMENTATION CFR(s): 483.440(d)(1) As soon as the interdisciplinary team has formulated a client's individual program plan, each client must receive a continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan. This STANDARD is not met as evidenced by: Based on observations, record reviews and interviews, the facility failed to ensure 3 of 4 audit clients (#2, #4, #5) received a continuous active treatment program consisting of needed interventions and services as identified in the Individual Program Plan (IPP) in the areas of dining guideline, toothbrushing and wheelchair guidelines. The findings are: A. Clients #4 toothbrushing guidelines were not followed.	W 249	This deficiency will be corrected by the following actions: A. The Clinical Supervisor and the Home Manager will train all Direct Support Professionals on the ISP of client #2 with special attention being paid to toothbrushing goals/procedures outlined within his ISP. This training will be documented on form F9.8 Inservice/Training Signature Sheet which will be filed in the training binder at the group home. B. Direct Support Professionals will document this training on form F10.10 Client Specific Competencies. That form will then be filed in the training binder at the group home. C. The Clinical Supervisor and the Home Manager will train all Direct Support Professionals on the ISP of client #4 with special attention being paid to the proper use of the wheelchair following a meal as outlined within her ISP. This training will be documented on form F9.8 Inservice/Training Signature Sheet which will be filed in the training binder at the group home. D. Direct Support Professionals will document this training on form F10.10 Client Specific Competencies. That form will then be filed in the training binder at the group home. E. The Clinical Supervisor and the Home Manager will train all Direct Support Professionals on the ISP of client #5 with special attention being paid to mealtime guidelines as outlined within her ISP. This training will be documented on form F9.8 Inservice/Training Signature Sheet which will be filed in the training binder at the group home.	4/13/20

During observations in the home on 2/12/2020 at 6:30am, the key pad device for the medication closet was observed to be in the down position, indicating the door was unlocked. The door to the medication closet was able to be opened. At 6:34am, Staff F was observed to walk out of the office, put client #6's medication box in the closet, and walk away. Staff F did not lock the door. At 6:35am, Staff F came back to the closet with client #2 and retrieved her medications. Staff F shut the closet door but did not lock it. At 6:51, Staff F and client #4 went to the closet to get his medication box. Staff F shut the closet door and went into the office. At 6:55am, Staff F and client #4 came out of the office and put the medication box in the closet. At that time, Staff F was observed to shut the closet door, lock it, and put the key pad device back in the up position.</p> <p>Interview on 2/12/2020 with Staff F revealed that the medication closet should always be locked, even between getting medications out for different clients in the home. Staff F stated that</p>	W 382	Please see Page 9.

W 382	Continued From page 10 he knew the medication closet should have been locked, but with everything going on he just slipped his mind. Interview on 2/12/2020 with the HM revealed that the medication closet should always be locked, even between getting medications out for different clients in the home. Interview on 2/12/2020 with the QIDP confirmed the medication closet door should "absolutely always be locked."	W 382	Please see Page 9.		
W 474	MEAL SERVICES CFR(s): 483.480(b)(2)(iii) Food must be served in a form consistent with the developmental level of the client. This STANDARD is not met as evidenced by: Based on observation, record review and interview, the facility failed to assure food was served in a form consistent with the developmental level for 1 of 4 audit clients (#6). The finding is: Client #6's dining guidelines were not followed. During observations in the home on 2/11/2020 at 6:00pm, client #6 was sitting at the dining room table. Staff D assisted client #6 with scooping chicken and pastry and mixed vegetables onto his plate. Staff D then assisted client #6's chopping food into smaller pieces. At 6:28pm, client #6 requested a second serving. Staff D gave client #6 a second helping of chicken and pastry and a dinner roll. Staff D did not prompt the client to chop his food and consumed it whole.	W 474	This deficiency will be corrected by the following actions: A. The Clinical Supervisor and the Home Manager will train all Direct Support Professionals on the ISP of client #6 with special attention being paid to mealtime guidelines as outlined within his ISP. This training will be documented on form F9.8 Inservice/Training Signature Sheet which will be filed in the training binder at the group home. B. Direct Support Professionals will document this training on form F10.10 Client Specific Competencies. That form will then be filed in the training binder at the group home. C. The Home Manager will monitor Direct Support Professionals 2x/week to observe interactions with the clients for adherence to each client's ISP. These supervisions will be documented on form F2.49 Monitoring-Observation Form. D. The Clinical Supervisor will monitor Direct Support Professionals 1x/week to observe interactions with the clients for adherence to each client's ISP. These supervisions will be documented on form F2.49 Monitoring-Observation Form. E. A member of the Administrative team, or a designated representative, will monitor Rockwood at least once per month through the Site Review process.	4/13/20

Dear Ms. Karanu,

Thank you for your time and the feedback given during the survey you completed on February 12, 2020. We appreciate your diligence in assisting us in providing the best care possible to the consumers we serve. We look forward to making the recommended changes that will improve the services we provide.

Enclosed you will find the Plan of Correction. If you have any questions, please call me at (919) 387-1011 ext. 217. Again, thank you for your time and patience.

Sincerely,

BA/QP

Gary J. Ricci II, BA/QP
