W 331	<p>NURSING SERVICES CFR(s): 483.460(c)</p> <p>The facility must provide clients with nursing services in accordance with their needs.</p> <p>This STANDARD is not met as evidenced by: Based on review of records and interviews, the facility failed to provide 5 of 5 clients (#1,#2, #3, #4 and #5) residing in the group home with nursing services according to their needs. The findings are:</p> <p>A. Nursing services failed to ensure infection control relative to client #4. For example:</p> <p>Review of internal records on 11/17/20 revealed a medical consult for client #4 dated 6/26/20. Review of the 6/26/20 medical consult revealed client #4 was treated at urgent care for shingles. A review of records for client #4 on 11/16/20 and 11/17/20 revealed a diagnosis history to include moderate intellectual disability, attention deficit hyperactivity disorder (ADHD) and Autism. Continued review of client #4's records revealed a behavior support plan dated 2/14/20 with target behaviors of physical aggression, non-compliance, self-injurious behavior and agitation. Further record review revealed clinical notes dated 3/11/20, 3/18/20 and 5/6/20 to reflect client #4 does not understand boundaries, likes to touch and likes attention.</p> <p>Interview with the facility behaviorist on 11/17/20 verified client #4 has a behavior history of getting close to others, touching others and difficulty understanding the personal space of others. Interview with the facility nurse on 11/17/20 verified shingles can be contagious as it is a</p>	W 331	See attached.	1/17/2021

Continued interview with the facility nurse verified she did not implement any documented protocols to address infection control after client #4 was diagnosed with shingles. Further interview with the facility nurse verified she had not provided any training to staff relative to shingles and infection control after client #4's diagnosis of shingles.</p> <p>B. Nursing services failed to provide timely client assessments after a confirmed case of bed bugs was identified in the group home. For example:</p> <p>Review of internal facility records revealed a confirmed case of bed bugs in the group home on 6/26/20. Review of internal records revealed staff informed the facility program manager on 6/26/20 of bugs on the wall. Further documentation review revealed a treatment service was sent to the group home on 6/26/20 for a full home assessment that confirmed bed bugs were in one bedroom of the group home only. Review of an administration inquiry relative to the 6/26/20 bed bug outbreak at the group home revealed staff sent an email to the program manager on 6/29/20 that revealed on 6/26/20 staff observed an insect drop off client #3's bed. Staff flipped the sheet of the client's bed and saw bugs.</p> <p>Interview with administration confirmed a case of bed bugs had been discovered in the group home on 6/26/20 and an extermination service assessed the home on 6/26/20 to determine treatment needs. Continued interview with administration confirmed all clients were relocated on 7/1/20 so the group home could be treated. Further interview with administration revealed clients were able to remain in the group home from 6/26-7/1/20 due to confirmation from</p>	W 331		1/17/2021

Continued interview with the facility nurse revealed she did not conduct an assessment on any client in the group home on 6/26/20 for any marks or bites related to bed bugs. Continued interview with the facility nurse revealed she had instructed staff to assess each client and staff had reported no marks on any client. Subsequent interview with the facility nurse verified she had not conducted a training with staff relative to the appearance of bed bug bite marks. Additional interview with the facility nurse verified clients in the group home were not assessed by a nursing staff until 7/2/20.</p>	W 331		1/17/2021

W 331: NURSING SERVICES: The facility must provide clients with nursing services in accordance with their needs.

A. Nursing services failed to ensure infection control relative to client #4.

Community Alternatives of NC, specifically the Wilson group home, will ensure that nursing protocol, procedures, and training are completed by the interdisciplinary team as soon as a client is diagnosed with a virus/disease relative to infectious control. The nurse will train all staff on the proper protocol and steps needed to prevent any further infection to the diagnosed client, as well as anyone else in the home.

B. Nursing services failed to provide timely client assessments after a confirmed case of bed bugs was identified in the group home.

The facility nurse will complete a health assessment in person, on the same day, any time there is a confirmation of bed bugs in the group home. The facility nurse will provide education and training to the staff on what to look for relative to bites, and what protocol should take place. The Residential Manager and Clinical Supervisor will follow up on training and ensure that proper procedures are being followed.

To be completed by: 01.17.2020

Dear Kaila Mitchell,

Please find the enclosed plan of correction for deficiencies cited during the recent survey at the Wilson Group Home on November 17, 2020. Deficiency will be corrected as indicated in the plan of correction.

We would like to request an invitation of return visit on or after January 17, 2021.

Thank you for all your assistance that you provide us in helping meet the needs of the people we serve.

Sincerely

A handwritten signature in black ink, appearing to read "Jenita Hooks".
