The finding is:</p> <p>Observations at the group home on 10/5/20 at 3:45 PM revealed environmental concerns with a collection of broken items outside the group home on the lawn of the facility. Observations revealed a non-operational outdoor grill with various pieces of rusted metal with sharp edges under the lid of the grill and an non-operational outdoor sink with rusted metal baskets collected on top to sit collected to the side of the group home lawn. Continued observation of the outside environment of the group home revealed a glass table with collected dirt that evidenced lack of use, unused lumber with protruding rusted nails, broken wicker furniture with sharp edges, a metal chair in front of the group home with detached metal from the frame with sharp edges and a table on the front porch of the group home with a glass tray that contained cigarette butts. Subsequent review of the outdoor property of the group home site revealed a broken lantern light at the top of the group home driveway. Observation</p>	W 104	<p>Rouses Safety Coordinator and Administrative Team did a campus inspection to have all items that posed an environmental concern removed from the property.</p> <p>Monthly the safety coordinator and committee members will do a campus wide inspection to ensure the campus is safe and free of any items that pose a risk to environmental safety.</p> <p>In the event items are broken due to behavioral outbursts and/or other reasons, the safety coordinator, AQP and clinical director will ensure broken items and/or sharp objects are removed immediately.</p> <p>As needed the Clinical Director, AQP and DSP staff will the notify the Safety Coordinator of any environmental safety concerns immediately to protect and ensure the environment remains safe to all clients served at the group home.</p> <p>Immediately after notification of environmental concern, the safety coordinator will ensure any environmental item that poses a health and safety risk is repaired or replaced.</p> <p>The administrative office staff will arrange maintenance as necessary to ensure the campus is safe and free from unsafe hazards.</p>	<p>10/08/20</p> <p>11/15/20</p> <p>11/30/20</p> <p>12/01/20</p> <p>10/15/20</p> <p>10/06/20</p>

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

W 104	Continued From page 1 near the broken lantern revealed multiple pieces of broken glass compiled at the base of the light.  Interview with the facility qualified intellectual disabilities professional (QIDP) on 10/5/20 revealed glass from the broken lantern of the driveway of the group home was reported to have been cleaned up. Continued interview with QIDP and the facility administrator on 10/5/20 verified there were items in the lawn of the group home that were to be hauled off and thrown away. Further interview with the QIDP and facility administrator verified the need for closer supervision of environmental safety of the group home with identified behaviors of a new client in the group home.	W 104		
W 227	<b>INDIVIDUAL PROGRAM PLAN</b> CFR(s): 483.440(c)(4)  The individual program plan states the specific objectives necessary to meet the client's needs, as identified by the comprehensive assessment required by paragraph (c)(3) of this section.  This STANDARD is not met as evidenced by: Based on observation, review of records and interview the individual support plan (ISP) failed to have sufficient training objectives or interventions relative to behavior management for 1 of 1 sampled client (#1). The finding is:  Review on 10/5/20, during a complaint investigation survey, revealed an internal investigation dated 10/1/20. Review of the 10/1/20 investigation revealed an allegation that client #1 alleged staff A slapped her.	W 227	The RGH Interdisciplinary team, (Clinical Director, AQPs, Health Care Supervisor, Med Tech, Safety Coordinator/Community Liason, Psychologist) will hold a core team meeting to perform a clinical review of the clients.  During the discussion of client #4 review, the team will include the need to update client #4's BSP to address not telling the truth (lies) or telling half-truths.  The Psychologist will revise target behavior to client #4's BSP to include, telling half-truths and lies.  Monthly, the team will review each client's BSP to determine if their behavioral objectives meet their behavioral management needs and revise as needed.	10/06/20  10/06/20  11/20/20  12/01/20

W 227	Continued From page 2  Review of records for client #1 on 10/5/20 revealed an ISP dated of 6/25/20 with a diagnosis that included: moderate intellectual disability, disruptive mood disorder, borderline personality and conduct disorder. Further record review revealed a behavior support plan (BSP) dated 5/31/20 with target behaviors of property destruction, inappropriate verbal behavior, self-injurious behavior, elopement, physical aggression and crisis behavior with suicidal ideation. Review of a psychological assessment for client #1 dated 10/17/19 revealed the client to sometimes lie to obtain things, favors or to avoid obligations; sometimes lies to get out of trouble and sometimes lies to deceive others.  Interview with the facility qualified intellectual disability professional (QIDP) on 10/5/20 revealed the internal investigation initiated 10/1/20 was still open and findings had not been concluded. Continued interview with the QIDP revealed after client #1 made the allegation against staff A, there were no observed marks on client #1 relative to the allegation. Subsequent interview with the QIDP revealed staff interviews had thus far, not confirmed any observation of abuse towards client #1 by any staff. Additional interview with the QIDP revealed client #1 has a history of not telling the truth and this behavior had caused past issues with other clients. Interview with the associate QIDP revealed client #1's identified behavior of telling stories or half truths had not been included in client #1's BSP and guidelines to address the behavior had also been omitted.	W 227	Weekly the Clinical Director, AQPs, Psychologist, and Health Care Supervisor will perform observations of client #4. The clinical team will also monitor client #4's BSP data to ensure BSP tracks client's need to address telling half-truths and lies.  Quarterly the clinical team will review, monitor and revise BSP's and other training objectives as needed to meet the client's needs  Annually and/or as needed all client's BSPs and other training objectives will be revised and implemented,  RGH will follow up with Alliance Behavioral Health Julia's MCO to address Enhanced Rate request presented in May to request additional staffing and support for Julia.  Rouses has registered staff to train to become NADD Certified.	11/20/20  11/30/20  12/04/20  10/30/20  11/30/20

W 249	Continued From page 3  As soon as the interdisciplinary team has formulated a client's individual program plan, each client must receive a continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan.  This STANDARD is not met as evidenced by: Based on review of records and interviews, the individual support plan (ISP) failed to include sufficient interventions, as identified by the interdisciplinary team (IDT), to address behavior management for 1 of 1 sampled client (#1). The finding is:  Review on 10/5/20, during a complaint investigation survey, revealed an internal investigation dated 10/1/20. Review of the 10/1/20 investigation revealed an allegation that client #1 alleged staff A slapped her. Further review of the internal investigation revealed client #1 to have had a behavior incident on 9/30/20 that resulted in the client breaking a lantern light fixture in the driveway of the group home that the client then used a piece of glass to cut herself. Additional review revealed client #1 was taken to the local emergency room and treated with dermabond glue to close the wound.  Review of records for client #1 on 10/5/20 revealed and admit date of 5/25/20. Continued record review revealed an ISP dated of 6/25/20 with a diagnosis that included: moderate intellectual disability, disruptive mood disorder,	W 249	The Clinical Director will provide training and periodic supervision to the AQPs.  The IDT team will do an addendum to client #1's individual support plan (ISP) to ensure implementation of increased supervision to address client's safety due to the severity of behaviors.  Clinical Director will review and approve all ISPs prior to implementation. CD will ensure all plans include sufficient interventions, services and frequencies identified by the interdisciplinary team (IDT), to address behaviors and/or other active treatment needs.  The interdisciplinary team will do a review of clients ISP during monthly clinicals to ensure continuity of services and other active treatment needs are met.  The facility will continue to petition Alliance MCO and Cumberland DSS, to provide an enhanced rate of pay to cover the need for increased supervision of client #1 to support client safety due to the severity of behaviors.  The Psychologist will modify client #1's BSP to include increased supervision as a behavior intervention or prevention measure to any identified target behavior.  the Psychologist and IDT will monitor the BSP monthly to ensure client #1's BSP address the behaviors and includes significant interventions to meet client #1's behavior management needs.	11/01/20  11/06/20  12/02/20  11/19/20  11/16/20  12/01/20
