Interview on 4/7/21 and 4/8/21 with the Clinical Director revealed: -she received a call from the BHT at Silver Ridge that the client's room was really dark, and she didn't look good. -she asked the client if she would count her Subutex in front of the BHT. -the client agreed, and the count was on track. -this was just a precaution, she was not concerned the client was heavily medicated or that she wasn't taking her Subutex properly. On 4/13/21 a request for Client #3's Physician Orders and March 2021 MAR was sent via email to the Vice President of Clinical Services and Quality Management who responded as follows: Because of the nature of the investigation, "I got your email for wanting the additional self administration orders. I think at this point we will the existing self administration orders, and just write the POP and try to move through this. I the recommendation of Wendy Boone and don't think there is opportunity for discussion or Robin Sulfridge, program leadership opted flexible perspective taking at this point ..." to follow up with additional information during the appeal process with DHHS. Interview on 4/7/21 with Staff #1 revealed: -he had "quite a bit" of contact with clients while they were quarantined at the hotel. -he was the primary BHT at Silver Ridge that took them food, medications, supplies for art group, Tylenol, crackers and whatever else they may

Division of Health Service Regulation

have needed.

-he also checked on the well-being of the clients

VP of Operations will conduct weekly The findings are: supervision with Program Director and Cross Reference: 10A NCAC 27G.0201review all of the following (in addition to

Governing Body Policies (V105). Based on record review and interviews, the facility failed to develop and implement adoption of standards that assure operational and programmatic performance meeting applicable standards of practice amidst the COVID-19 (Coronavirus-Disease-2019) pandemic and in accordance with the facility's scope of licensed services.

Cross Reference: 10A NCAC 27G.0208- Client Services (V115). Based on interviews and record reviews, the facility failed to provide supervision to ensure the safety and welfare for three of three clients (Clients #2, #3 and #4).

Cross Reference: 10A NCAC 27G.0209(c)-Medication Administration (V118). Based on interviews and record reviews the facility failed to ensure client's had a written order of a person authorized by law to prescribe drugs to self-administer their medications affecting 2 of 3 clients (Clients #2 and #4).

Interviews on 4/5/21 and 4/6/21 with the Vice President of Clinical Services and Quality Management revealed:

- -all clients started in the Residential/Supervised Living program upon admission.
- -once transitioned to the PHP (Partial Hospitalization Program/Day Treatment) the client had the option to pay a boarding fee if they chose

standard review): all admissions and discharges, screening, orders and approval for day treatment clients ability to function without 24 hour supervision and outside the supervised living level of care, selfadministration orders for all clients and additional self-administration orders to supplement existing orders when clients transition through the levels of care, and assurance of no opportunities for continued support provided by Silver Ridge Residential Program for clients no longer at the supervised living level of care.

VP of Clinical Services will meet weekly with Clinical Director to review upcoming discharge plans with focus on pending transitions from supervised living to day treatment to help clients prepare for discharge from supervised living given new parameters from DHHS on progression through treatment.

VP of Clinical Services and Quality Management, Clinical Director, and Director of Performance Improvement will meet monthly to audit all past transitions and pending transitions to ensure compliance to above stated plans.

Effective immediately, any clients that transition from our supervised living program to our day treatment program will have written approval by medical provider to continue services in day treatment without supervision. The Silver Ridge team will ensure that clients receive written orders that they do not require 24 hour supervision and will ensure that clients are not permitted to remain at the residential house for additional support or supervision while at the day treatment level of care only. Responsibility and oversight of this protocol is with the Program Director, Clinical Director, and VP of Operations. 10A NCAC 27G.0209(c) Medication Administration (V118) The state reported this deficiency is related to not having self-administration orders for clients at the day treatment level of care. The Silver Ridge team's current conceptualization is that the client's ability to self-administer medications is inherent in the level of care given that the level of care is 'day treatment' and does not require 24 hour supervision. In addition, the ability to self

Division of Health Service Regulation

administer medications is part of the admission criteria for all levels of care at Silver Ridge. All clients receive self- administration orders from the Silver Ridge medical team to last the duration of "90 days unless otherwise specified" during their admission to the treatment program.

In order to respond to DHHS feedback, effective immediately, all clients transitioning to a new level
