W 000	INITIAL COMMENTS	W 000		
W 104	<p>Complaint Intake#: NC00179341, NC00179668</p> <p>GOVERNING BODY CFR(s): 483.410(a)(1)</p> <p>The governing body must exercise general policy, budget, and operating direction over the facility.</p> <p>This STANDARD is not met as evidenced by: Based on observation and interviews, the governing body failed to exercise general policy and operating direction over the facility by failing to assure facility furniture was in good repair in Beaucatcher. The finding is:</p> <p>Observation conducted of the group home furniture in the main day room of Beaucatcher on 7/27/21 revealed a recliner to slightly lean to the left side. Continued observation revealed the foot rest of the chair to protrude outward from the chair and staff I to attempt to recline the chair. Upon staff I's attempt to recline the chair, the wooden leg came out from under the chair and the foot rest was observed to be broken. Staff I, then placed the chair back into an unreclined position. Further observation revealed from 9:10 AM to 9:30 AM for client #11 to sit in the recliner with the recliner leaning to the left side.</p> <p>Interview with client #19 revealed she enjoys sitting in the recliner and had not done so for a while as the recliner was broken and had been broke for a while. Further interview confirmed client #6 also enjoys sitting in the recliner. Interview with staff I on 7/27/21 revealed she had previously requested repairs for the recliner and</p>	W 104

W 104	Continued From page 1 was assured the repairs were completed. Further interview with staff J verified client #6 and #19 prefer to sit in the recliner while in the dayroom. Additional interview with staff J revealed a work order should be completed to address the need for furniture repairs.  Interview with the clinical director on 7/27/21 revealed all furniture should be in good repair and without safety concerns to clients in the home. Continued interview with the clinical director revealed furniture should also be arranged or removed after an observation of a safety issue to provide safety to the clients in the facility until maintenance can conduct necessary repairs. W 149	<p>Continued From page 3</p> <p>7/26/21 revealed an in-service training was conducted with all staff that work with client #16 on 7/16/21 relative to the bedroom alarm for the client. Interview with the clinical director verified no additional protective measures had been implemented with the 7/14/21 incident other than a nursing evaluation for client #4 and #23, an in-service regarding client #16's bedroom door alarm and consideration of the clinical team as to the appropriateness of keeping client #4 and #23 in the same home as #16. Additional interview with the clinical director verified the facility had not initiated a formal investigation regarding the 7/14/21 incident although the facility had interviewed staff A and reviewed camera footage in the group home from 7/14/21. The clinical director further confirmed a current facility inquiry had started 7/25/21 due to a report of information that was different from the information reported in the 7/14/21 incident by staff A.</p> <p>Review of records for client #16 on 7/26/21 revealed a person centered plan (PCP) dated 5/9/21. Continued review of the PCP for client #16 revealed a behavior support plan dated 9/24/20. Review of the current behavior plan for client #16 revealed target behaviors of non-compliance, intrusive attention seeking, inappropriate contact, verbal aggression, PICA, physical aggression, property destruction, AWOL, verbally threatening self injurious behavior, self injury, making untrue statements, inappropriate sexual self stimulation, invading the privacy of other persons bedrooms and taking inappropriate foods. Additional record review for client #16 revealed a diagnosis history of mild intellectual disability, pervasive developmental disorder, bi-polar disorder and oppositional defiant disorder.</p>	W 149

W 149	Continued From page 4  Interview with clinical director on 7/26/21, after the initial interview, verified client #16 has had a history of involvement in allegations regarding sexual behavior towards other clients although no allegation of sexual abuse had ever been substantiated. The clinical director further confirmed clients #4 and #23 would be moved, on the current day, to another residence on the facility site, outside the residence of client #16.  Observation in the group home on 7/26/21 verified client #4 and #23 had been moved to another residence on the facility site. Observation of client #4 and #23, at their relocated residence in Sunset, revealed both clients to be non-verbal and client #4 to ambulate in a wheelchair with staff assistance.  Interview with staff A on 7/26/21 verified he had observed client #16 to exit the bedroom and close the door of client #4 and #23 on 7/14/21. Continued interview with staff A revealed while he did not observe direct physical contact of client #16 with client #4 or #23 he was concerned with what did happen. Further interview with staff A verified he immediately reported the incident to the site supervisor.  Interview with the site supervisor, staff B, on 7/26/21 revealed he was informed by staff A of the incident on 7/14/21 involving client #16. Continued interview with staff B revealed he conducted an immediate observation of clients #4 and #23 with the report received by staff A and observed the blanket for client #4 to be pulled back, the brief of client #4 to be undone and the brief to be folded down between the client's legs. Subsequent interview with staff B revealed he	W 149

W 249	<p>Continued From page 14</p> <p>prevention strategies that include: a silent alarm on the exits from his bedroom during team designated times due to client #16 leaving his room at night on second and third shift and going into the bedroom of others. Further review of guidelines relative to the silent alarm for client #16 revealed when staff are aware the alarm is activated they will observe and monitor the client to ensure he does not enter the room of another home resident.</p> <p>Review on 7/27/21 of internal training revealed an in-service training with staff on 7/16/21 specific to client #16's room alarm. Review of the 7/16/21 training revealed in the event client #16 is in his room, staff must have his "buzzer" (alarm) on their person at all times; when the buzzer vibrates this means that staff must go and check on client #16 and see what he is doing immediately. The charger for the buzzer is in the Hawksbill front office, put it in there if not in use.</p> <p>Interview with staff A on 7/26/21 revealed the silent alarm for client #16 is used at night only after the client goes to bed. Continued interview with staff A revealed after client #16 goes to bed, staff use the alarm control box to monitor client #16 by keeping the control box on the staff and monitoring the box for any vibration that would indicate the client has opened his bedroom door. It should be noted this surveyor had staff A to set off the alarm to ensure working order of the control box. Further interview with staff A revealed the alarm control box is kept in a locked area when not in use as client #16 is capable of accessing the alarm box and tampering with the controls.</p> <p>Interview with the clinical director on 7/27/21</p>	W 249

W 473	<p>Continued From page 27</p> <p>Further observation at 7:45 AM revealed staff I to assist client #11, #14, #19 and #22 to fix their plates and to pour milk from the pitcher into a cup for each client. Observation at 7:45 AM revealed the milk to sit out of the refrigerator for over 30 minutes. Subsequent observation at 7:50 AM revealed all clients to engage in eating and drinking breakfast items. Additional observation at 8:15 AM revealed staff I to return the drink items to the kitchen, including the milk which was placed back into the refrigerator.</p> <p>Interview with the facility dietician on 7/27/21 at 8:15 AM revealed that milk should not sit outside of refrigeration for more than 15 minutes. Continued interview revealed food temperature should be checked with a thermometer to ensure appropriate serving temperature after food has been on the table an extended period of time.</p> <p>Interview with the clinical director on 7/27/21 confirmed milk should not have been allowed to remain outside of refrigeration for more than 15 minutes. The clinical director further confirmed the milk remaining in the pitcher after the breakfast meal should have been discarded.</p>	W 473
