Plan of Correction to Survey Completed 10/06/2021

V118 27G.0219 (C) Medication Requirements:

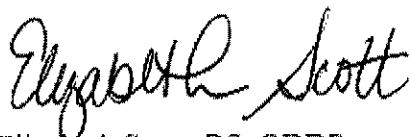

To Correct the Deficiency: The rule is not met based on a urine odor by and in bedroom #3. The consumer in bedroom #3 has incontinence issues, and wears a diaper. Staff reminds her to go to the bathroom the last thing before she goes to bed, and the first thing in the morning. We also have on-site a carpet cleaner. In addition, we have previously requested from the Arc of NC, the owner, to replace the carpeting with laminate or hard wood floors.

We are sending a copy of this report to Arc of NC to let them be aware of this citation, and to request again that the flooring be changed. We will call in a professional carpet cleaner again, and we will continue to use our own carpet cleaner in the home.

To Prevent the Deficiency from Occurring Again: As stated above, we will request that the flooring be changed to one that is more conducive to cleaning the urine. We will call in a professional carpet cleaner (we usually do this twice per year anyhow) to professionally clean the carpet. We will continue to use the home carpet cleaner to clean up between professional cleaning. In addition, we will continue to prompt the consumer to use the bathroom more frequently and as needed.

Who will Monitor: The managers who are live-in staff are responsible to monitor the situation on a daily basis, and perform carpet cleaning as needed. The Division Director (program supervisor) is responsible for monitoring the home.

How Often the Monitoring will Take Place: Monitoring by the managers will take place daily. The Division Director will monitor at least monthly, but is normally in the home multiple times per week and will monitor the odor during those visits.

Dear Ms. Scott:

Thank you for the cooperation and courtesy extended during the Annual survey completed October 6, 2021.

Enclosed you will find all deficiencies cited listed on the Statement of Deficiencies Form. The purpose of the Statement of Deficiencies is to provide you with specific details of the practice that does not comply with state regulations. You must develop one Plan of Correction that addresses each deficiency listed on the State Form, and return it to our office within ten days of receipt of this letter. Below you will find details of the type of deficiencies found, the time frames for compliance plus what to include in the Plan of Correction.

Type of Deficiencies Found

- All tags cited are standard level deficiencies.

Time Frames for Compliance

- Standard level deficiency must be **corrected** within 60 days from the exit of the survey, which is 12/5/21.

What to include in the Plan of Correction

- Indicate what measures will be put in place to **correct** the deficient area of practice (i.e. changes in policy and procedure, staff training, changes in staffing patterns, etc.).
- Indicate what measures will be put in place to **prevent** the problem from occurring again.
- Indicate **who will monitor** the situation to ensure it will not occur again.
