[FC #7] said he broke the window out of frustration." Interview on 1/6/22, the Officer who responded on 11/7/21 reported: He did not witness any inannonniate interaction between staff #1 and FC #7. FC #7 was agitated each time staff #1 came near him. FC #7 "huffed or frowned" each time staff #1 came around during the visit. He did not spend a lot of time at the facility. He just took the report and transported the client to the emergency room (ER). b. Review on 12/13/21 of a EMS (Emergency Management System) report dated 11/14/21 at 4:59 PM revealed the following from the First Medic: "Patient (FC #7) is a 67 YOM (year old male), sitting on the front porch. When we arrive on scene he gets up and begins to walk towards the ambulance. We meet him in the front yard. He is A&Ox4 (alert and oriented). He has a diagnosis of paranoid schizophrenia. He is aware of his diagnosis and will agree that he feels paranoid. He admits that he was at the hospital twice yesterday. When asked why he called 911 today he states, 'the medication they gave me at the hospital yesterday wore off.' When asked if he has had pain today he states, 'well the medication wore off this morning, I've just been laying in bed all day.' When asked if he took his medication this morning he states, 'no I did not. They don't work like the medications at the hospital.' Patient struggles to understand reason, and refuses to believe that he was given the same medications at the hospital as prescribed at the group home. Division of Health Service Regulation

She did not recall a time when EMS (Emergency Management System) arrived and she was at the group home or arrived while they were on site. Interview on 12/10/21, staff #1 reported: After she looked through the clients' records and talked with the Licensee/QP#1, FC #7 and client #2 did not have unsupervised time. Interviews between 12/9/21 and 12/15/21, client #2 and client #1 verified staff was always home when EMS arrived for FC #7. Client #2 reported during one occasion, he was in bed when EMS arrived. He was asleep and was not able to provide any information on that visit. Interview on 12/17/21, the local police officer reported the following about 11/13/21: He was the first emergency personnel on the scene. "This was around 3:00-4:00 PM." "It took awhile for EMS to arrive." He estimated 45 minutes before EMS arrived at the facility. Upon arrival, FC #7 was outside on the steps and reported no staff was inside. Police never went inside the home. Police rung doorbell and at least two different clients confirmed no staff were inside the home.

Earlier in the week, he had responded to several calls that involved FC #7. During prior calls, group home staff was available on site. Upon arrival, no staff was on site. He walked through the home and asked clients about staff. He could not recall how many clients were home. He recalled one was in the bed. Interview on 12/15/21, the EMO Driver on 11/13/21 reported: Due to an overwhelming number of calls, her unit was not initially cleared to respond. Estimated a 30 minute time lapse between when the Advance Practice Medic arrived and her arrival. A van pulled up at the group home simultaneously as she arrived with the EMS The van driver/staff #1 was asked to move the van because it blocked EMS's access to the driveway. Interview on 12/17/21 staff #1 reported: She now recalled not being at home when the EMS arrived to pick up FC #7 The morning of 11/13/21, FC #7 was taken to the hospital. Later that afternoon, she had to leave the home to "run an errand." When she left the home, FC #7 was not at the home. Upon her arrival, EMS was at the group home to take FC #7 back to the hospital. She was not sure how or whom returned FC #7 to the group home.

Before admission to this group home, he had been in a psychiatric hospital since July 2021. "I don't think he can have unsupervised time." "I would be concerned because he might do something to someone else or be taken advantage of...I can see him getting agitated or getting beat up or harmed." *From what I remember, they (psychiatric hospital and group home) did an assessment on him and they would've known that he was not to be left alone." FC #7 had a history of elopement and property destruction. Interviews between 12/17/21 and 1/10/22 the Licensee/QP #1 reported: Although the EMS had been contacted on more than 5 occasions for FC #7, she thought the incident occurred on 11/14/21 not 11/13/21. FC #7 did not have unsupervised time. The hospital discharged FC #7 without speaking to a staff. She discussed the occurrence with staff #1 after 12/17/21. Staff #1 disclosed the "errand" she performed was to the local grocery store. She did not agree the group home should be cited when the hospital did not make contact directly with the staff. She did not recall receiving a missed call or any communication from the hospital of his discharge. Review on 12/17/21 of the facility's Plan of Protection dated 12/17/21 submitted by the Licensee/QP #1 revealed: "What immediate action will the facility take to ensure the safety of the consumers in your care?

QP will complete an unsupervised time assessment on every new client into the facility to determine need as per supervision rule not later than 30 days of admission Describe your plans to make sure the above happens. QP will ensure that all new clients assessments are done by checking their chart and reviewing with staff at the facility every month and complete any unsupervised assessment due. The new client (FC #7) in question had an assessment started but already indicated he is not staying and 30 day notice to vacate facility was already served." Clients #2 and FC #7 who were diagnosed with Bipolar and Schizophrenia respectively, resided at the group home on 11/13/21. Both had been admitted to the facility less than 30 days. Neither client had been assessed and deemed capable of unsupervised time. FC #7 contacted emergency management systems and complained of chest pains. Upon arrival of Police and EMS, no staff was available on site at the group home. An estimated 45 minutes to an hour time lapsed without staff at the home. The lack of staff available in an emergency situation constitutes a Type A1 rule violation for serious neglect and must be corrected within 23 days. An administrative penalty of \$2000.00 is imposed. If the violation is not corrected within 23 days, an additional administrative penalty of \$500.00 per day will be imposed for each day the facility is out of compliance beyond the 23rd day.

[FC #7] woke up this morning and said he wanted some coffee and his medication. He got upset that I did not get them quick enough and he started getting aggressive. I heard something breaking and then I looked outside, he had a piece of glass or something in his hand while walking around in the front yard." Interview on 12/9/21 staff #1 reported: FC #7 broke the window in the living room. She deferred questions about the incident to the Qualified Professional (QP) #2 who was the Licensee/QP #1's husband. Interviews between 12/9/21 and 12/10/21, the QP #2 reported: He had attempted to secure a company to fix the living room glass. The first glass company canceled the appointments or never came. Difficult to secure a glass company due to issues with supplies and work demands. He called a second glass company and an appointment was scheduled for 12/10/21. Interview on 12/10/21, the first glass company representative provided by QP #2 reported: Per their records, they had not received any inquiry regarding the address, QP #2's name or telephone numbers related to this group home. interview on 12/10/21, the second glass company representative provided by QP #2 reported: Company was contacted on Monday 12/6/21 regarding the broken window. Between Monday 12/6/21 and Tuesday 12/7/21, an onsite estimate and assessment was conducted. Friday 12/10/21 between 10 AM -12
