Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

W 227	Continued From page 2 Based on observations, record review and interviews, the facility failed to ensure the Individual Program Plan (IPP) for 1 of 6 audit clients (#15) included objectives to address behavior management techniques. The finding is: During observations in the home throughout the survey on 3/14/22 through 3/15/22, client #15 was observed to repeatedly put his hands down the front and back of his pants. During the observations, client #15 was observed to touch various items in the home such as dining tables, laminated posters, doorknobs, etc. as well as participate in medication administration. At no time during the observations of client #15 putting his hands down the front or back of his pants was he prompted to wash his hands nor were any of the surfaces cleaned. Interview on 3/15/22 with the facility's Director confirmed staff should have immediately intervened, prompted client #15 to wash his hands and then clean the surface areas he touched.	W 227			
W 247	INDIVIDUAL PROGRAM PLAN CFR(s): 483.440(c)(6)(vi) The individual program plan must include opportunities for client choice and self-management. This STANDARD is not met as evidenced by: Based on observations, record review and interviews, the facility failed to ensure 2 of 6 audit clients (#14 and #15) received consistent opportunities for choice and self-management in their home environment. The findings are:	W 247

W 249	Continued From page 11 #14 in bathing his body." Further review of the guidelines state that client #14 "must be covered and transferred back to his bedroom on the shower bed, with "both staff" assisting client #14 to transfer from the shower bed to his bed to be dressed, and then into his wheelchair. Review of client #14's daily program schedule listed 22-S Bathing guidelines were part of his ongoing active treatment. In an interview on 3/15/22 with staff F, she confirmed that that two people were to transfer client #14 to take him to the bathroom on the shower bed "because it is easier," but she stated that two staff were not required to bathe. She further stated that client #14 could be transferred and dressed in the bathroom. In an interview on 3/15/22 with the Director, she confirmed that two staff were needed to transfer, but she stated that "staff can bathe by themselves." When asked about client #14's stability on the shower bed, she stated, "As far as I know, he doesn't get unstable on the shower bed." The Director confirmed that the present bathing guidelines for 22-S were correct and had not changed.	W 249

W 252	Continued From page 17 sheets from 2021 or 2022. Interview on 3/15/22 with the facility's Director confirmed that staff were no longer using the program books to record data. Interview on 3/15/22 with the consulting Psychologist confirmed that data should be recorded on any targeted behaviors in the BSP.	W 252			
W 312	DRUG USAGE CFR(s): 483.450(e)(2) be used only as an integral part of the client's individual program plan that is directed specifically towards the reduction of and eventual elimination of the behaviors for which the drugs are employed. This STANDARD is not met as evidenced by: Based on record reviews and interviews, the facility failed to ensure drugs to manage client behavior were only used as an integral part of the client's Individual Program Plan (IPP). This affected 1 of 6 audit clients (#15). The finding is: Review on 3/14/22 of client #15's IPP dated 10/5/21 revealed client #15 has a history of insomnia, difficulties going to sleep, not sleeping for days, and waking up during the night. Additional review of the IPP revealed client #15 is on medications to assist him with sleeping including Melatonin and Trazodone. Review on 3/14/22 of client #15's Behavior Intervention Plan (BIP) dated 6/8/21 revealed client #15 is supported with the medication Trazodone. The BIP did not include a tracking system to determine the effectiveness of the use of Melatonin.	W 312

W 340	Continued From page 19 Interview on 3/15/22 with the facility's Director confirmed staff should have immediately intervened, prompted client #15 to wash his hands and then clean the surface areas he touched. B. During observations in the home on 3/15/22 at 7:10am, client #6 was observed skin picking on his left hand. Staff G approached client #6 and said "let's not do that, it's gonna bleed." Client #6 ignored Staff G and was prompted again to stop. Staff G walked away, then client #6 began to pick at skin on the fingers of his right hand, which led to bleeding. Client #6's hands were not washed before he walked over to the dining room at 7:30am. At 7:35am, Staff G asked client #6 to help make a pot of coffee. Client #6 was given a cup with coffee grounds and he poured it into the coffee maker. Interview on 3/15/22 with Staff G revealed that she did not have client #6 wash his hands after she observed him skin picking or before asking him to make coffee. Staff G said that she would dispose of the coffee. Interview on 3/15/22 with the facility's Director revealed whenever a client starts bleeding, the affected area should be cleaned, then reported to the nurse.	W 340
