V 114	Continued From page 4  - completed one last Thursday with client #2 & #3 - had not completed any tornado drills  During interview on 8/12/22 the Licensee reported: - the clients were not admitted to the facility long enough to complete drills - staff should have clients to simulate the drills - the Qualified Professional was the primary person to ensure drills were completed	V 114		
V 289	27G .5601 Supervised Living - Scope  10A NCAC 27G .5601 SCOPE (a) Supervised living is a 24-hour facility which provides residential services to individuals in a home environment where the primary purpose of these services is the care, habilitation or rehabilitation of individuals who have a mental illness, a developmental disability or disabilities, or a substance abuse disorder, and who require supervision when in the residence. (b) A supervised living facility shall be licensed if the facility serves either: (1) one or more minor clients; or (2) two or more adult clients. Minor and adult clients shall not reside in the same facility. (c) Each supervised living facility shall be licensed to serve a specific population as designated below: (1) "A" designation means a facility which serves adults whose primary diagnosis is mental illness but may also have other diagnoses; (2) "B" designation means a facility which serves minors whose primary diagnosis is a developmental disability but may also have other diagnoses;	V 289

V 752	<p>Continued From page 15</p> <p>- staff will place the water thermometer under the running water from the faucet, to test the temperatures</p> <p>Review on 8/11/22 of the facility's Plan of Protection dated 8/11/22 written by the Qualified Professional revealed: "What immediate action will the facility take to ensure the safety of the consumers in your care? As of August 11, 2022 maintenance was called and turned down the temperature of the water heater. Water was checked several times and is now within rage of guidelines. Thermometer will be replaced. Water will be checked by running water over the thermometer.</p> <p>Describe your plans to make sure the above happens. Owner [Licensee] and I will monitor water temperature daily for 30 days to ensure that water temperature is within the range of 100 - 116 Weekly monitoring follow and documented on a spreadsheet."</p> <p>Client #2 &amp; #3 were admitted with diagnosis of Schizophrenia. They shared a bedroom. The water temperature at their bathroom sink, tub and shower was 138 degrees Fahrenheit. The facility's water log had temperatures that ranged from 100 to 113 degrees Fahrenheit over a 6 month period. However, the water temperature was being measured by placing the water thermometer in a cup of water. This made it difficult to determine how long the water temperature had been at 138 degrees Fahrenheit. This deficiency constitutes a Type A2 rule violation for substantial risk of serious harm and must be corrected within 23 days. An administrative penalty of \$500.00 is imposed. If the violation is not corrected within 23 days, an additional administrative penalty of \$500.00 per</p>	V 752
