We submitted our report based on our investigation to the health care registry. Staff #1 stated he never touched FC1 and that he and FC1 were the only people in the home at the time. However, we later found that Staff #1 contradicted himself. Upon finding Staff #1 admitted that he pushed/struck FC1, we amended our report to the health care registry and notified Staff #1 that he had been terminated. He never returned to the facility.  We are actively pursuing ways to continue providing safe environments to our clients, which includes identifying/developing ways to mitigate the likelihood of an incident like this from occurring in the future.  At this point, I'm not sure what more we could have done to prevent this from happening that day.	V 512
