-"Performance Measurements: ...

- ...Demonstrate the ability to problem solve independently ..."

The Behavioral Health Director/QP failed to

demonstrate competency by the following: -He did not revise the client PCP's. -He performed client intake assessments which did not match the clients' behavioral histories. -He did not provide oversight to ensure direct care staff were meeting the clients' needs. -He was responsible verifying and maintaining

timesheets of all direct care staff which indicated the facility was out of ratio on numerous dates. -He failed to problem solve the systemic issues within the facility.

	from level III to Level	II at earliest convenience.				
	Interview on 9-26-22 and 9-27-22 with Behavioral Health Director/QP (Qualified Professional) revealed:  -"Sometimes it (CCA) isn't available and a lot of time I don't get that until after the fact and then when I finally get it and read the kids history, I wouldn't have accepted him. Folks know what I am looking for and what would be disqualifiers for the program and I feel like sometimes certain documentation is shared and some isn't. All I am left with reviewing is what they submit."  -"[Client #6] had charges prior to admission."  -He completes the Initial Assessment Screening tool for each client and also sends the form to the guardians. "ButI can't even get them to return them half the time."  -He agreed the assessment screening should reflect "more robust questions".  -He made a decision on 9-26-22 not to admit clients without having all of the clients' historical information.  -"I had 16 level II beds to fill and providers asking for months about the 16 beds being available and I feel like maybe some documentation appeared to make some folks level II that weren'tyou have some others that say they are level II and they are not. I ran into this issuebefore and when I read their recommendation, I wouldn't even take them into a level III."

Staff will receive remedial training on general safety protocols, elopement policy, and search and seizure policy. Staff will be conscious of clients that are not eating their meals and allow for alternate choices. Staff will pick up lunches, for their assigned facility, by 11am each day from the office. Staff will begin dating all lunch bags with the date it was prepared. Staff will rotate the lunches with various meats, chips, and desserts each day vice consistently preparing similar lunches. Staff will complete the monthly October order (Week 1) for "Independent Meal Plan" and have all items delivered to the facility prior to close of business 9/30/2022. Staff will be trained to only allow a few items during scheduled snack times to be consumed and prevent overconsumption of snack items.  Describe your plans to make sure the above happens.  I have discussed these things with the employee leads in the homes to ensure these things have been made aware. Many of these items have already been implemented. The policy and procedure for all varying subjects will be

V 179 Continued From page 33 re-trained in meticulous detail to ensure staff have good comprehension of the rules governing the facility. (Behavioral Health Director/QP) will be responsible to ensure that remedial training on the subject matter shown above is completed. Policy and Procedure remedial training will be scheduled for Tuesday, October 4th by (Behavioral Health Administrator).*  Review on 9-30-22 of an Addendum to the POP completed by the Behavioral Health Administrator on 9-30-22 revealed:  "Case Management will receive further training, in times of emergency with adding goals relative to the immediate behavioral concern. We will also update the crisis plan and potentially create a "Individual Behavioral Plan" with the client should the situation seem to dictate. Clear Sky Behavioral has already revised the Initial Assessment Screening tool that has been used since 2017 to meet the recommendations of the DHSR surveyors on site. This tool encompasses a broader spectrum of questions along with a clinical review of documents by a licensed therapist. The final steps will include a face to face or virtual type of meeting with the potential resident. This process has been practiced for years but has not been a required facet on the screening tool until this revision"  Review of 10-11-22 of a second Addendum to the POP completed by the unaudited QP on 10-11-22 revealed:  "What immediate action will the facility take to ensure the safety of the consumers in your care? Initial Assessment Tool has been revised to include licensed clinician input into review of

An unstructured living environment and lack of supervision directly resulted in clients' elopements, one of which led to pending felony criminal charges related to the break-in and
damage at the Recreational Vehicle (RV) park. Additionally, numerous weapons and contraband were found in a clients' possession inside the facility. The facility failed to maintain minimum staffing ratios which require at least one direct care staff member be present with every four clients. There were multiple dates on which no staff were identified as working. There were staff covering both facilities at the same time. Some staff were documented as having worked multiple 24 hours shifts in a row for clients identified as either Level III or higher level of care. The Behavioral Health Director/QP, Behavioral Health Administrator, Behavioral Health Facilitator, and
