Therefore, the facility must ensure privacy during treatment and care of personal needs. This STANDARD is not met as evidenced by: Based on observations and interviews, the facility failed to ensure privacy for 2 of 3 sampled clients (#2, #3) and 1 non-sampled client (#5). The findings are:</p> <p>A. The facility failed to ensure privacy for client #3 during medication administration. For example:</p> <p>Observations in the group home on 1/31/22 at 6:08 PM revealed client #3 to sit in her wheelchair outside of the medication room to prepare for medication administration. Continued observation revealed staff to enter the medication room and punch several pills in a cup for client #3. Further observation revealed staff to enter the kitchen and place a tablespoon of yogurt in the medication cup. Additional observation revealed staff to provide medication administration to client #3 in the dining area as other clients and staff walked by. At no point during the observation was client #3 offered privacy during medication administration.</p> <p>Interview with the qualified intellectual disabilities professional (QIDP) on 2/1/22 verified that all clients should receive medication administration in the medication room and not in the dining area. Continued interview with the QIDP verified that client #2 should have been placed in the medication room with the door closed for medication administration. The facility nurse was not available for the interview.
