Interview on 4/30/24 and 5/29/24 with the Owner/Licensee revealed: -Picture was taken on 1/11/24 and marks on FC #2's neck were acknowledged; -Was responsible for entering incident reports for the facility; -Did not feel the 1/11/24 incident warranted report as FC#2 denied harm, "he (FC #2) told me it (the incident) was nothing", during internal interview on 1/16/24,"[FC #2] stated that he had no issues;" -"My investigation didn't get any wrongdoing by the staff;" -No documentation was available regarding the cause of the incident, corrective measures, measures to prevent similar incidents from occurring and the person(s) to be responsible for implementation of corrective and preventive measures; -Requested documentation regarding reports, but was not provided by exit date.	V 366	Based on the statement above we did not clearly articulate our Policy and Procedure for handling Level II and Level III incidents. NewPath has a Policy that clearly spells out how those types of incidents will be reported. All incidents are reported to the Case Manager (who in turn makes the determination of what level of incident it is. The staff submits the narrative for review. The case manager then files it. If it is a Level II we keep it with our internal records, If it is a Level III we input it into IRIS.	05/29/2024

There is also control and limited control escort hold, but they (staff) are taught to release and take a step back if client goes to the ground." Review on 5/29/24 of the Plan of Protection dated	V 512				
	5/29/24 and signed by the Owner/Licensee revealed: -"What immediate action will the facility take to ensure the safety of the consumers in your care? The staff will be re-trained in de-escalation methods as well at EBPI restraint training. Staff will follow the implemented crisis plan put in place by the team and consumer. In the event of that a consumer is experiencing a mental health crisis that may result in a restraint, the staff will get assistance by the on-call staff to aid in the de-escalation. The Director ([Owner/Licensee]) will increase his supervision with staff to ensure he understands the best way to keep an incident from escalating to a point of physical intervention. I will be doing weekly observations of the shifts involving staff. In the event of an allegation of abuse the Director ([Owner/Licensee]) will do an internal investigation within 24 hours of the incident, and remove staff from the schedule until it has been deemed that the matter has been handled satisfactorily to meet the needs of the consumer involved.					
	-Describe your plans to make sure the above happens. I will have the instructor schedule a training no later than Friday the 31st. My supervision have already begun and will continue until we deem that staff is in full compliance of the standards. I will document my supervisions with staff."

On 1/11/24, the AP refused to return a gaming system that had been confiscated due to his poor academic performance and failure to complete chores and FC #2 became angry. FC #2 went to his room, kicked his dresser, and began banging his head against the wall. The AP went to FC #2's bedroom and while attempting to implement a restraint, FC#2 dropped to the floor and the AP went down to the floor with him, and held him for 5-10 minutes until he calmed down. After the incident the AP contacted the PM and was instructed to take a picture of FC#2. The AP sent the picture of FC #2 to the PM and the PM forwarded the picture to the QP on 1/11/24. The picture of FC#2 showed 3 linear marks on his neck. On 1/12/24, the PM took FC #2 to the QP's home to look the client over, the QP and AP acknowledged that there were marks on FC #2's neck, and no first aid was provided. The QP and the PM failed to protect FC #2 from harm by not removing the AP from work schedule and allowing the AP to continue to work with FC #2. This deficiency constitutes a Type A1 rule violation for serious abuse and must be corrected
