E 037	Continued From page 4 *[For CMHCs at §485.920(d):] (1) Training. The CMHC must provide initial training in emergency preparedness policies and procedures to all new and existing staff, individuals providing services under arrangement, and volunteers, consistent with their expected roles, and maintain documentation of the training. The CMHC must demonstrate staff knowledge of emergency procedures. Thereafter, the CMHC must provide emergency preparedness training at least every 2 years. This STANDARD is not met as evidenced by: Based on record review and interview, the facility failed to provide and maintain documentation of annual staff training on the Emergency Preparedness Plan (EPP) for Yadkin III facility. The finding is: Review of facility documentation on 8/28/24 revealed an EPP dated 11/4/23. Continued review of the 11/2023 EPP did not reveal evidence of an annual staff in-service training. Interview with the qualified intellectual disabilities professional (QIDP) on 8/28/24 verified that evidence of the facility EPP in-service training could not be located during the survey. Continued interview with the QIDP verified that the EPP in-service training should be completed and documented annually and updates are completed as needed.	E 037

following the onset of the emergency event.
(ii) Analyze the OPO's response to and maintain documentation of all tabletop exercises, and emergency events, and revise the [RNHCI's and OPO's] emergency plan, as needed.

*[RNCHIs at §403.748]:
(d)(2) Testing. The RNHCI must conduct exercises to test the emergency plan. The RNHCI must do the following:
(i) Conduct a paper-based, tabletop exercise at least annually. A tabletop exercise is a group discussion led by a facilitator, using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan.
(ii) Analyze the RNHCI's response to and maintain documentation of all tabletop exercises, and emergency events, and revise the RNHCI's emergency plan, as needed.
This STANDARD is not met as evidenced by:
Based on record review and interviews, the facility failed to conduct exercises to test the emergency preparedness plan (EPP) annually which effects 12 of 12 clients in Yadkin II and Yadkin III facilities (#1, #2, #3, #4, #5 #6, #7, #8, #9, #10, #11, and #12). The findings are:

Review of facility documentation in Yadkin II facility on 8/28/24 revealed an EPP dated 3/4/24. Continued review of the facility's EPP did not reveal evidence of a full-scale facility based, mock drill, or a tabletop exercise to test the facility's EPP.

Review of facility documentation for Yadkin III facility on 8/28/24 revealed an EPP dated 11/4/23. Review of the facility's EPP did not reveal

E 039	Continued From page 14 evidence of a mock drill, tabletop exercise or a full-scale facility based exercise to test the facility's EPP. Interview with the qualified intellectual disabilities professional (QIDP) on 8/28/24 revealed that evidence of a full-scale community facility based exercises, tabletop or mock drill exercises were not available during the survey. Continued interview with the QIDP verified that the facility tabletop, mock drill, and/or full-scale exercises for Yadkin II and III were not completed as required.	E 039		
W 249	PROGRAM IMPLEMENTATION CFR(s): 483.440(d)(1) As soon as the interdisciplinary team has formulated a client's individual program plan, each client must receive a continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan. This STANDARD is not met as evidenced by: Based on observations, record review and interviews, the facility failed to ensure that a continuous active treatment program consisting of needed interventions were implemented as identified in the person-centered plan (PCP) for 2 of 3 sampled clients (#1, #10). The findings are: A. The facility failed to provide client #10 with a gait belt to assist with ambulation. For example: Morning observations on 8/28/24 from	W 249

6:30AM-8:30AM revealed client #10 to participate in various activities to include meal preparation, personal care, and medication administration. Continued observations revealed client #10 to ambulate throughout the facility without a gait belt. Observations at 10:00AM in the day program also revealed client #10 to not have on a gait belt.

Review of the record for client #10 on 8/28/24 revealed a PCP dated 3/14/24 which indicated an osteopenia and arthritis diagnosis. Continued review of the record for client #10 revealed an occupational therapy (OT) assessment dated 1/23/24 which indicated the following adaptive equipment: high sided divided dish, clothing protector, dycem mat, bed alarm, gait belt, wheelchair for long distances, and compression socks.

Interview with the qualified intellectual disabilities professional (QIDP) on 8/28/24 revealed that client #10 wears a gait belt to assist with ambulation throughout the day. Continued interview with the QIDP revealed that all of client #10's program goals and interventions are current. Further interview with the QIDP verified that staff should ensure that client #10 has on a gait belt during ambulation as prescribed.

B. The facility failed to provide client #1's prescribed bilateral ankle braces and orthotic shoes to help with ambulation. For example:

Observations in the group home on 8/27/24 at 4:03 PM revealed client #1 to be seated in a recliner chair in the living room wearing slippers and to not wear bilateral ankle braces and orthotic shoes. Continued observation at 4:07 PM revealed client #1 to stand and ambulate to the

W 249	Continued From page 16 medication room using walker and return to the living room. Continued observations revealed client #1 to ambulate with walker from living to the dining room to prepare for the dinner meal. At no time during the observation was staff observed to provide client #1 with his bilateral ankle braces and orthotic shoes. Review of records on 8/28/24 revealed a (PCP) dated 6/4/24 which states client #1 has bilateral ankle braces and orthotic shoes to help with ambulation and the client should always use them. Continued review of records for client #1 revealed a podiatry consult dated 7/2/24 which verified the client to be followed due to left foot lesion and at-risk diabetic foot care. Interview with the qualified intellectual disabilities professional (QIDP) on 8/28/24 confirmed that client #1's PCP and podiatry consult are current. Continued interview with the QIDP confirmed that staff should provide client #1 with his prescribed bilateral ankle braces and orthotic shoes to help with ambulation.	W 249

W 340	Continued From page 17 ensuring soap was accessible in the bathroom for Yadkin II facility. The finding is: Observation in the group home on 8/27- 8/28/24 during recertification survey revealed a bathroom off the living room to be utilized by clients #1, #3, and #5. Continued observations of the bathroom revealed no soap to be in the bathroom throughout survey observations. Observations on 8/27/24 at 5:37 PM revealed client #1 to enter the bathroom off the living room, wash his hands with no soap available, and to exit the bathroom. Subsequent observations in the group home on 8/28/24 revealed clients #2 and #5 to use the bathroom off the living room at various times and the bathroom remained with no soap throughout the observations. Interview on 8/28/24 with staff A revealed that soap should have been provided in the bathroom for the clients. Continued interview with the qualified intellectual disabilities professional (QIDP) verified that all bathrooms should have soap available.	W 340		
W 474	MEAL SERVICES CFR(s): 483.480(b)(2)(iii) Food must be served in a form consistent with the developmental level of the client. This STANDARD is not met as evidenced by: Based on observation, record review and interview, the facility failed to assure food consistency was served in a form according to the developmental level of 1 of 3 sampled clients (#10) in Yadkin III facility. The finding is: Morning observations on 8/28/24 at 6:55AM	W 474

revealed staff to assist client #10 to the kitchen area to prepare for the breakfast meal. The breakfast meal consisted of cream of wheat, sausage patties, orange juice and 2% milk. Continued observations revealed staff to assist client #10 with blending the sausage patties to a ground consistency using hand over hand assistance. Further observations at 7:05AM revealed client #10 to consume her breakfast in its entirety. At no point during the observation did staff assist client #10 in preparing the sausage patties in a puree consistency.

Review of the record for client #10 revealed a PCP dated 3/14/24 which indicated the following diagnosis: Barrett's esophagus, I/DD profound, cataracts, urinary frequency, blepharitis, presbyopia, GERD, chronic UTI, obsessive compulsive disorder, hiatal hernia, post menopausal disorder, helicobacter pylori infection, hypermetropia, hypertension, and history of CVA. Continued review of the record for client #10 revealed an OT assessment dated 1/23/24 which indicated recommendations to change the client's diet consistency from ground to puree due to reports of the client choking with dry mechanical foods.

Interview with the qualified intellectual disabilities professional (QIDP) on 8/28/24 revealed that staff have been trained to prepare client #10's food based on the prescribed diet consistency. Continued interview with the QIDP verified that all of client #10's goals and interventions are current. Further interview with the QIDP verified that staff should prepare client #10's food consistency as prescribed.
