V 000	INITIAL COMMENTS An annual survey was completed on October 9, 2024. A deficiency was cited. This facility is licensed for the following service category: 10A NCAC 27G .5600C Supervised Living for Adults with Developmental Disabilities. This facility is licensed for 3 and currently has a census of 2 clients. The survey sample consisted of audits of 2 current clients.	V 000		
V 291	27G .5603 Supervised Living - Operations 10A NCAC 27G .5603 OPERATIONS (a) Capacity. A facility shall serve no more than six clients when the clients have mental illness or developmental disabilities. Any facility licensed on June 15, 2001, and providing services to more than six clients at that time, may continue to provide services at no more than the facility's licensed capacity. (b) Service Coordination. Coordination shall be maintained between the facility operator and the qualified professionals who are responsible for treatment/habilitation or case management. (c) Participation of the Family or Legally Responsible Person. Each client shall be provided the opportunity to maintain an ongoing relationship with her or his family through such means as visits to the facility and visits outside the facility. Reports shall be submitted at least annually to the parent of a minor resident, or the legally responsible person of an adult resident. Reports may be in writing or take the form of a conference and shall focus on the client's progress toward meeting individual goals. (d) Program Activities. Each client shall have activity opportunities based on her/his choices, needs and the treatment/habilitation plan.	V 291

V 291	Continued From page 2 -Staff was responsible for checking his blood sugar. -They checked her blood sugar once a day. Interview on 10/9/24 staff #1 stated: -Blood sugars were taken on third shift before any meals in the morning. -The doctor requested blood sugars to be taken and a log kept. -Client #1 did not have blood sugar parameters from the doctor for staff to follow. Interview on 10/9/24 staff #2 stated: -Symptoms of high/low blood glucose were sweating, slurred speech, and trembling. -Client #2 did not have any parameters given by his doctor to monitor blood sugar. Interview on 10/9/24 the Program Manager stated: -Client #1 did not have any blood sugar parameters in his record from the doctor. -Staff will speak to the doctor about getting the parameters at client #1's upcoming doctor's appointment next week. -She was responsible for ensuring that blood sugar parameters were in the client's record when received from the doctor.	V 291	The PM (Program Manager) will follow up with Client #1's doctor to obtain parameters for monitoring of his blood sugar levels. The PM will ensure that staff are monitoring blood sugar levels according to the parameters as provided by the doctor and documenting the levels when checked. The QP will monitor monthly to ensure that blood sugar levels have been obtained and that staff are documenting accordingly when monitoring levels.	12/12/2024
