V 000	INITIAL COMMENTS A complaint survey was completed on 8/12/25. The complaint was substantiated (Intake #NC00232773). Deficiencies were cited. This facility is licensed for the following service category: 10A NCAC 27G .5600A Supervised Living for Adults with Mental Illness. This facility is licensed for 6 and has a current census of 6. The survey sample consisted of audits of 1 current client.	V 000		
V 109	27G .0203 Privileging/Training Professionals 10A NCAC 27G .0203 COMPETENCIES OF QUALIFIED PROFESSIONALS AND ASSOCIATE PROFESSIONALS (a) There shall be no privileging requirements for qualified professionals or associate professionals. (b) Qualified professionals and associate professionals shall demonstrate knowledge, skills and abilities required by the population served. (c) At such time as a competency-based employment system is established by rulemaking, then qualified professionals and associate professionals shall demonstrate competence. (d) Competence shall be demonstrated by exhibiting core skills including: (1) technical knowledge; (2) cultural awareness; (3) analytical skills; (4) decision-making; (5) interpersonal skills; (6) communication skills; and (7) clinical skills. (e) Qualified professionals as specified in 10A NCAC 27G .0104 (18)(a) are deemed to have met the requirements of the competency-based employment system in the State Plan for	V 109	As a result of the AC going out at the facility, Ultimate purchased a brand-new AC unit with a warranty. The facility also purchased four new AC units to be utilized in the home. Two of which were window units and two were portable air conditioners. The two portable air conditioners will remain at the home and can be used at any time. All individuals will have access to utilize them whenever needed. In the event that the AC units go out again the facility will have those four backup ACs to better assist the residents. RECEIVED SEP 04 2025 DHSR-MH Licensure Sect

V 109	Continued From page 2 - "Treatment as documented. Patient is taken to nearest fire station and immersed in ice water via body bag. He is never noted to have shivering present. He is monitored for duration of immersion. He remains in ice water until his temperature reaches 98 degrees and his mentation improves. Patient is transported to (local emergency room)..." - incident dated: 7/29/25 - primary impression: fever - "EMS 12 dispatched out to a 64 years of age Pt (patient) that is noted to be coming from a group home. Pt was noted to have been seen at the ER within the past several days... Upon arrival to the Pt this evening it is found to be 90 degrees in the residence with staff stating that the air conditioning had been out for several days and that they couldn't get anybody out to fix it... Pt is found to be extremely hopt (hot) to the touch and is noted to be somewhat altered which is noted to be normal for the pt. group home staff states that he has had a fever ever since he came back from the hospital. Pt was taken outside and placed onto the stretcher where he could be assessed and treated in a cool environment. during assessment Pt is noted to state that he started to feel much better once out of the residence due to ambient temperature. Pt was transported to [local hospital] and treated per protocol throughout transport with improvement noted." Review on 8/8/25 of the local weather temperatures online revealed: Temperatures (local) during the week of July 21, 2025: - July 21: High of 95°F - July 22: High of 90°F - July 23: High of 88°F - July 24: High of 90°F	V 109	Staff will remind individuals that if they become too hot they can notify staff and she will adjust the air condition as needed and staff will provide individuals with a fan if needed. Staff will also monitor individual when they report that they have become to hot or to cold. Staff also reminded individuals that if they become to cold that they should notify staff immediately and she will work to provide them with a blanket and to make them as comfortable as possible.	08\19\25 and on going

V 366	Continued From page 13 specified timeframes not to exceed 45 days; (5) assigning person(s) to be responsible for implementation of the corrections and preventive measures; (6) adhering to confidentiality requirements set forth in G.S. 75, Article 2A, 10A NCAC 26B, 42 CFR Parts 2 and 3 and 45 CFR Parts 160 and 164; and (7) maintaining documentation regarding Subparagraphs (a)(1) through (a)(6) of this Rule. (b) In addition to the requirements set forth in Paragraph (a) of this Rule, ICF/MR providers shall address incidents as required by the federal regulations in 42 CFR Part 483 Subpart I. (c) In addition to the requirements set forth in Paragraph (a) of this Rule, Category A and B providers, excluding ICF/MR providers, shall develop and implement written policies governing their response to a level III incident that occurs while the provider is delivering a billable service or while the client is on the provider's premises. The policies shall require the provider to respond by: (1) immediately securing the client record by: (A) obtaining the client record; (B) making a photocopy; (C) certifying the copy's completeness; and (D) transferring the copy to an internal review team; (2) convening a meeting of an internal review team within 24 hours of the incident. The internal review team shall consist of individuals who were not involved in the incident and who were not responsible for the client's direct care or with direct professional oversight of the client's services at the time of the incident. The internal review team shall complete all of the activities as follows:	V 366	In the future the individual's team will meet to review copy of the individuals record to determine the facts causes of each incident and make needed recommendations for minimizing the occurrence of the event in the future. Incident report will be made within seventy-two hours after event occurrence. The facility will document all level two and three incidents correctly in the NC IRIS System. If individual is taken to the hospital the facility will complete NC IRIS Report.	08\19\25 and on going

V 367	Continued From page 19 This Rule is not met as evidenced by: Based on record review and interview, the facility failed to ensure incident reports were submitted to the Local Management Entity (LME)/Managed Care Organization (MCO) within 72 hours. The findings are: Review on 8/5/25 Client #1's Emergency Medical Services (EMS) Patient Care Record revealed: - incident dated: 7/26/25 - primary impression: heatstroke and sunstroke - protocols used: environmental-heat exposure/exhaustion - adults only - "...the environment the patient is in is extremely hot. There is no AC (air conditioning) noted in the facility...Outside air temp is near 100 degrees at the time of the call." - "Treatment as documented. Patient is taken to nearest fire station and immersed in ice water via body bag. He is never noted to have shivering present. He is monitored for duration of immersion. He remains in ice water until his temperature reaches 98 degrees and his mentation improves. Patient is transported to (local emergency room)..." - incident dated: 7/29/25 - primary impression: fever - "EMS 12 dispatched out to a 64 years of age Pt (patient) that is noted to be coming from a group home. Pt was noted to have been seen at the ER within the past several days...Upon arrival to the Pt this evening it is found to be 90 degrees in the residence with staff stating that the air conditioning had been out for several days and that they couldn't get anybody out to fix it... Pt is found to be extremely hopt (hot) to the touch and is noted to be somewhat altered which is noted to be normal for the pt.	V 367
