	opportunities for clie self-management. This STANDARD is	nt choice and		The Qualified Professional w in-service staff on ensuring o 1, #2, #3, #5, #6 and all othe people supported are all give	lient # r	
The individual program plan must include opportunities for client choice and self-management. This STANDARD is not met as evidenced by: Based on observations and interviews, the facility failed to ensure 6 of 6 audited clients (#1, #2, #3, #4, #5, #6) were provided opportunities for choice and self-management during mealtimes. The finding is: Morning observations on 8/20/25 at 7:15 AM revealed staff to prompt clients (#1, #2, #3, #5, and #6) to sit at the dining table to prepare for the breakfast meal. Further observations revealed staff to assist clients in pouring their cereal and milk into a bowl. Continued observations revealed clients cereal and milk to sit for approximately 12 minutes prior to consuming the breakfast meal. At no point during the observation were clients offered the opportunity to eat their breakfast without waiting for client #4 to finish her medication administration. Subsequent observations from 7:25AM -7:40 AM revealed staff to leave breakfast on the table for client #4 uncovered. Interview with the qualified intellectual disabilities professional (QIDP) on 8/20/25 revealed staff should have allowed clients to make their cereal with milk and eat immediately to prevent the clients from having to wait and prevent the cereal from becoming soggy. Further interview with the QIDP revealed staff should not have made the clients wait until client #4 finished with medication administration and re-joined the group for the breakfast meal.			medication and then going to breakfast within a reasonable frame. The clinical team will monitor to ensure staff are providing the meals within a reasonable time frame upon completion of receiving medications. The clinical tear monitor via mealtime assess 2 times a week for period of comonth and then on a routine in the future, the Qualified Professional will ensure all Posupported are provided meal within a reasonable time fram upon completion of receiving medications. By Oct. 19, 2025	m will ments one basis.		

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
