W 287	<p>Continued From page 1</p> <p>belt applied prior to the dinner meal. Further observation during this period revealed client #2 to rock her chair back; to drag her chair back and forth; to lunge forward in her chair and touch the floor; to physically kick at staff; and to grab at staff placing her off balance in the chair.</p> <p>Review of records on 12/16/25 for client #2 revealed a person-centered plan (PCP) dated 10/1/25. Further review of the PCP review of client #2's adaptive dining equipment consisting of a sectional plate with attached utensils, cup with straw, and a booster with seatbelt, with the client being placed in the booster seat right before meals.</p> <p>Continued review of records for client #2 revealed a behavior support plan (BSP) dated 10/01/25. Further review of the BSP revealed the following target behaviors: un-cooperation, sensory, self-regulation & communication challenges, dealing with disappointment, transitioning behavior, difficulty with food management, inappropriate toileting, aggression, property destruction, meltdowns, and disruptive sleep.</p> <p>Interview with the facilities qualified intellectual disabilities professionals (QIDP) and behavior support analyst (BSA) on 12/16/25 for client #2 revealed she is to be assisted into her booster seat and buckled in just before receiving her meal to avoid distractions and disruptions. Further interview with the QIDP and BSA confirmed they agreed that client #2 should not be placed in the booster until time for her meal presentation.</p>	W 287
