Welcome to MDS 3.0 Training 2024 Session #4

Janet Brooks, RN RAI Education Coordinator North Carolina Department of Health and Human Services Division of Health Service Regulation

Disclaimer:

This presentation is not a substitute for reading and reviewing the Long-Term Care Resident Assessment Instrument 3.0 User's Manual Version 1.18.11, October 2023 Item Sets Version 1.18.11 v6 October 2023 or

State Operations Manual Appendix PP Revised 2/3/23

Objectives:

Review Section GG- Functional Abilities and Goals Review Section H- Bladder and Bowel Review Section I- Active Diagnoses Review Section J- Health Conditions Review Related Regulations

Code of Federal Regulations (CFR)

 State Operations Manual Appendix PP revised 2/3/23: <u>https://www.cms.gov/medicare/provider-enrollment-and-</u> <u>certification/guidanceforlawsandregulations/downloads/appendix-pp-state-</u> <u>operations-manual.pdf</u>

SectionGG

 Intent: This section includes items about functional abilities and goals. It includes items focused on prior function, admission performance, current function, discharge goals, and discharge performance. Functional status is assessed based on the need for assistance when performing self-care and mobility activities.

Section GG: Functional Abilities and Goals

- Completed for PPS 5-day, IPA, PPS Discharge, and OBRA Admission, Quarterly, Annual, SCSA, SCPC and SCPQ assessments.
- This section assesses the need for assistance with self-care and mobility activities at the beginning and end of a SNF PPS stay and OBRA assessments.
- Section GG coding on admission should reflect the person's baseline admission functional status and is based on a clinical assessment that occurs soon after the resident's admission.
- The PPS functional score is be based on section GG.

Section GG: PPS assessments

- 5-day PPS MDS- Items focus on the resident's self-care/mobility performance at admission. This should be conducted prior to the person benefitting from treatment interventions in order to determine a true baseline functional status on admission. If treatment has started, for example, on the day of admission, a baseline functional status assessment can still be conducted. Treatment should not be withheld in order to conduct the functional assessment.
- The assessment period is days 1-3 of the SNF PPS stay starting with A2400B.
- Must have at least 1 goal for discharge performance.

GG0100, GG0110 Prior Functioning: PPS assessments only

- GG0100: Everyday Activities
 - Self-Care
 - Indoor Mobility (Ambulation)
 - Stairs
 - Functional Cognition
- GG0110: Prior Device Use
 - Manual wheelchair
 - Motorized wheelchair and/or scooter
 - Mechanical lift
 - Walker
 - Orthotics/prosthetics
 - None of the above

GG0100: Prior Functioning

- Ask the resident, their family or caregivers about their prior functioning with everyday activities
- Review the resident's medical records describing the resident's prior functioning with everyday activities.

GG0100 Coding: Prior Functioning

- Code 3, Independent: if the resident completed the activities by themself, with or without an assistive device, with no assistance from a helper.
- Code 2, Needed Some Help: if the resident needed partial assistance from another person to complete the activities.
- Code 1, Dependent: if the helper completed the activities for the resident, or the assistance of two or more helpers was required for the resident to complete the activities.

GG0100 Coding: Prior Functioning (continued)

- Code 8, Unknown: if the resident's usual ability prior to the current illness, exacerbation, or injury is unknown.
- Code 9, Not Applicable: if the activities were not applicable to the resident prior to the current illness, exacerbation, or injury.

GG0100. Prior Functioning: Everyday Activities. Indicate the resident's usual ability with everyday activities prior to the current illness, exacerbation, or injury Complete only if A0310B = 01

Coding:

00	uny.				
	Independent - Resident completed all the activities by themself, with or without an assistive device, with no assistance from a helper. Section 2010 Not Applicable.				
	 Needed Some Help - Resident needed partial assistance from another person to complete any activities. 				
			t - A helper completed all the activities for the resident.		
Enter	Code	s in l	Boxes		
	÷	A	Self-Care: Code the resident's need for assistance with bathing, dressing, using the toilet, or eating prior to the current illness, exacerbation, or injury.		
		B.	Indoor Mobility (Ambulation): Code the resident's need for assistance with walking from room to room (with or without a device such as cane, crutch, or walker) prior to the current illness, exacerbation, or injury.		
		C.	Stairs: Code the resident's need for assistance with internal or external stairs (with or without a device such as cane, crutch, or walker) prior to the current illness, exacerbation, or injury.		
Ľ		D.	Functional Cognition: Code the resident's need for assistance with planning regular tasks, such as shopping or remembering to take medication prior to the current illness, exacerbation, or injury.		
			rior Device Use. Indicate devices and aids used by the resident prior to the current illness, exacerbation, or injury if A0310B = 01

GG0115 Functional Limitation in ROM- previously G0400

GG0120 Mobility Devices- previously G0600

GG0115. Functional Limitation in Range of Motion			
Code for limitation that interfered with daily functions or placed resident at risk of injury in the last 7 days			
Coding: 0. No impairment 1. Impairment on one side 2. Impairment on both sides	Image: Enter Codes in Boxes Image: A. Upper extremity (shoulder, elbow, wrist, hand) Image: B. Lower extremity (hip, knee, ankle, foot)		
GG0120. Mobility Devices			
Check all that were normally used in the last 7 days			
A. Cane/crutch			
B. Walker			
C. Wheelchair (manual or electric)			
D. Limb prosthesis			
Z. None of the above were used			

GG0115 Functional Limitation in Range of Motion

- The intent of GG0115 is to determine whether functional limitation in range of motion (ROM) <u>interferes with the resident's activities of daily</u> <u>living</u> or <u>places them at risk of injury</u>.
- When completing this item, staff members should refer to items in GG0130 and GG0170 and view the limitation in ROM, considering activities the resident is able to perform. RAI page GG-5
- Steps for assessment RAI pages GG 6-7

GG0115 Coding Tips

- <u>Do not look at limited ROM in isolation</u>. <u>You must determine whether the</u> <u>limited ROM has an impact on functional ability or places the resident at risk</u> <u>for injury</u>.
- For example, if the resident has an amputation, it does not automatically mean that they are limited in function. A resident with an amputation may not have a particular joint in which a certain range of motion can be tested, however, that does not mean that the resident necessarily has a limitation in completing activities of daily living, nor does it mean that the resident is automatically at risk of injury.
- <u>This item is coded in terms of function and risk of injury, not by diagnosis or</u> <u>lack of a limb or digit</u>. RAI page GG-7

GG0120 Mobility Devices Coding Instructions

- **GG0120A, Cane/crutch:** *if the resident used a cane or crutch, including single-prong, tripod, quad cane, etc.*
- **GG0120B, Walker:** *if the resident used a walker or hemi-walker, including an enclosed frame-wheeled walker with or without a posterior seat and lap cushion. Also check this item if the resident walks while pushing a wheelchair for support.*
- **GG0120C, Wheelchair (manual or electric):** *if the resident normally sits in a wheelchair when moving about. Include wheelchairs that are hand propelled, motorized, or pushed by another person. Do not include geri-chairs, reclining chairs with wheels, positioning chairs, scooters, and other types of specialty chairs.*
- **GG0120D, Limb prosthesis:** *if the resident used an artificial limb to replace a missing extremity.*
- **GG0120Z, None of the above:** *if the resident used none of the mobility devices listed in GG0120 or locomotion did not occur during the observation period.*

GG0130: Self Care and GG0170: Mobility Coding PPS and OBRA assessments

- Code 06, Independent: if the resident completes the activity by themself with no assistance from a helper.
- Code 05, Setup or clean-up assistance: if the helper sets up or cleans up; resident completes activity. Helper assists only prior to or following the activity, but not during the activity. For example, the resident requires assistance cutting up food or opening container or requires setup of hygiene item(s) or assistive device(s).

GG0130 Self Care and GG0170 Mobility Coding

- Code 04, Supervision or touching assistance: if the helper provides verbal cues or touching/steadying/contact guard assistance as resident completes activity. Assistance may be provided throughout the activity or intermittently. For example, the resident requires verbal cueing, coaxing, or general supervision for safety to complete activity; or resident may require only incidental help such as contact guard or steadying assist during the activity.
- Code 03, Partial/moderate assistance: if the helper does LESS THAN HALF the effort. Helper lifts, holds, or supports trunk or limbs, but provides less than half the effort.

GG0130 Self Care and GG0170 Mobility Coding

- Code 02, Substantial/maximal assistance: if the helper does MORE THAN HALF the effort. Helper lifts or holds trunk or limbs and provides more than half the effort.
- Code 01, Dependent: if the helper does ALL of the effort. Resident does none of the effort to complete the activity; or the assistance of two or more helpers is required for the resident to complete the activity.

GG0130 and GG0170 Coding Activity was not attempted

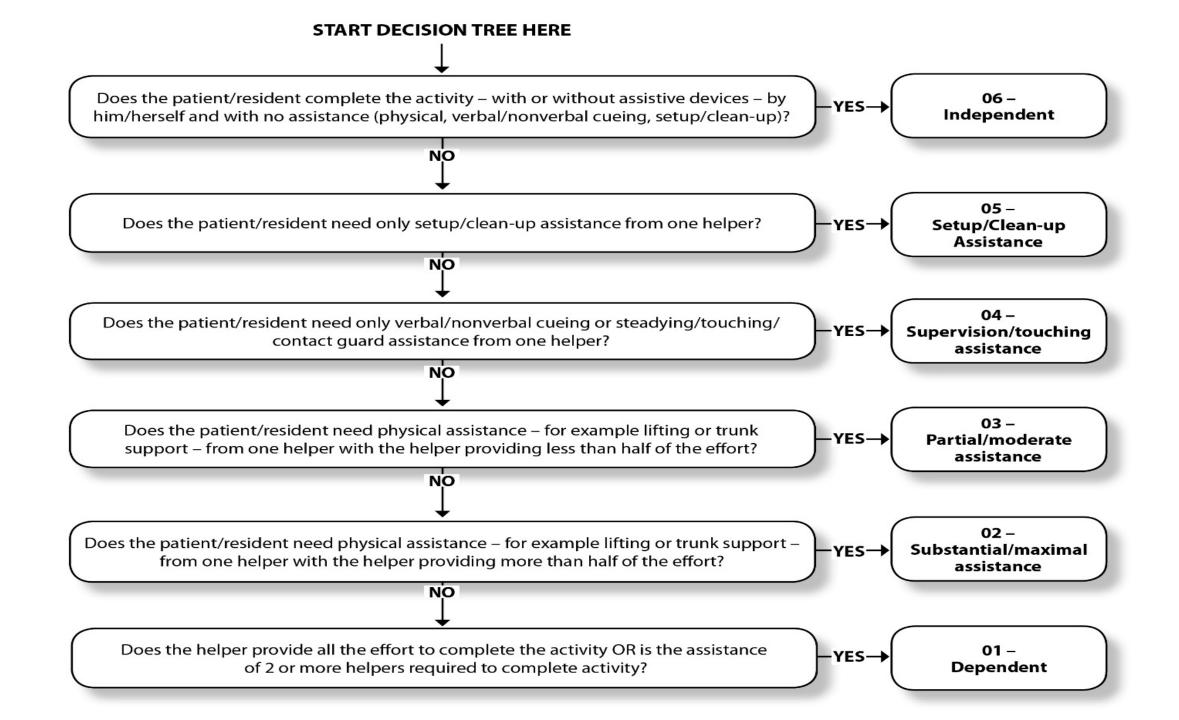

- Code 07, Resident refused: if the resident refused to complete the activity.
- Code 09, Not applicable: if the activity was not attempted and the resident did not perform this activity prior to the current illness, exacerbation, or injury.
- Code 10, Not attempted due to environmental limitations: if the resident did not attempt this activity due to environmental limitations. Examples include lack of equipment and weather constraints.
- Code 88, Not attempted due to medical condition or safety concerns: if the activity was not attempted due to medical condition or safety concerns.

GG0130 & GG0170 Steps for Assessment

- 1. Assess the resident's self-care and mobility performance based on direct observation, the resident's self-report, and reports from clinicians, care staff, or family reports, documented in the resident's medical record during the 3-day assessment period.
- 2. Residents should be allowed to perform activities as independently as possible, as long as they are safe.
- 3. If helper assistance is required because resident's performance is unsafe or of poor quality, score according to the amount of assistance provided.
 - If 2 or more helpers are required for safety, code as 01, Dependent.
- Fastening, buttoning, tying shoes is touching assistance.

Decision Tree page GG-18

 Use this decision tree to code the resident's performance on the assessment instrument. If helper assistance is required because the resident's performance is unsafe or of poor quality, score according to the amount of assistance provided. Only use the "activity not attempted codes" if the activity did not occur; that is, the resident did not perform the activity and a helper did not perform that activity for the resident.

GG0130 Functional Abilities and Goals- Admission Self-Care

Section GG - Functional Abilities and Goals - Admission

GG0130. Self-Care (Assessment period is the first 3 days of the stay) Complete column 1 when A0310A = 01. Complete columns 1 and 2 when A0310B = 01. When A0310B = 01, the stay begins on A2400B. When A0310B = 99, the stay begins on A1600.

Code the resident's usual performance at the start of the stay (admission) for each activity using the 6-point scale. If activity was not attempted at the start of the stay (admission), code the reason. Code the resident's end of SNF PPS stay (discharge) goal(s) using the 6-point scale. Use of codes 07, 09, 10, or 88 is permissible to code end of SNF PPS stay (discharge) goal(s).

- <u>GG0130 Self-Care (Assessment period is the first 3 days of the stay)</u> <u>Complete if an Admission or 5-day PPS</u>.
- If the 5-day PPS the stay begins on A2400B then both columns are required.
- If not a PPS assessment, the stay begins on A1600 and only column 1 is required
- Code the resident's usual performance at the start of the stay (admission) for each activity using the 6-point scale. If activity was not attempted at the start of the stay (admission), code the reason. Code the resident's end of SNF PPS stay (discharge) goal(s) using the 6-point scale. Use of codes 07, 09, 10, or 88 is permissible to code end of SNF PPS stay (discharge) goal(s).

GG0130 Functional Abilities and Goals Self-Care Admission or 5-day PPS

Admission	Discharge	
Performance Goal		
🗼 Enter Code	s in Boxes 🖌	
		A. Eating: The ability to use suitable utensils to bring food and/or liquid to the mouth and swallow food and/or liquid once the meal is placed before the resident.
		B. Oral hygiene: The ability to use suitable items to clean teeth. Dentures (if applicable): The ability to insert and remove dentures into and from the mouth, and manage denture soaking and rinsing with use of equipment.
		C. Toileting hygiene: The ability to maintain perineal hygiene, adjust clothes before and after voiding or having a bowel movement. If managing an ostomy, include wiping the opening but not managing equipment.
		E. Shower/bathe self: The ability to bathe self, including washing, rinsing, and drying self (excludes washing of back and hair). Does not include transferring in/out of tub/shower.
		F. Upper body dressing: The ability to dress and undress above the waist; including fasteners, if applicable.
		G. Lower body dressing: The ability to dress and undress below the waist, including fasteners; does not include footwear.
		H. Putting on/taking off footwear: The ability to put on and take off socks and shoes or other footwear that is appropriate for safe mobility; including fasteners, if applicable.
		 Personal hygiene: The ability to maintain personal hygiene, including combing hair, shaving, applying makeup, washing/drying face and hands (excludes baths, showers, and oral hygiene).

GG0170 Functional Abilities and Goals Mobility Admission or 5-day PPS

Section GG - Functional Abilities and Goals - Admission

GG0170. Mobility (Assessment period is the first 3 days of the stay) **Complete column 1 when A0310A = 01. Complete columns 1 and 2 when A0310B = 01.** When A0310B = 01, the stay begins on A2400B. When A0310B = 99, the stay begins on A1600.

Code the resident's usual performance at the start of the stay (admission) for each activity using the 6-point scale. If activity was not attempted at the start of the stay (admission), code the reason. Code the resident's end of SNF PPS stay (discharge) goal(s) using the 6-point scale. Use of codes 07, 09, 10, or 88 is permissible to code end of SNF PPS stay (discharge) goal(s).

- GG0170 Mobility (Assessment period is the first 3 days of the stay) Complete if an Admission or 5-day PPS.
- If 5-day PPS the stay begins on A2400B and both columns are required.
- If not a PPS assessment, the stay begins on A1600 and only column 1 is required

GG0170 Functional Abilities and Goals Mobility Admission or 5-day PPS

Admission	Discharge	
Performance Goal		
Enter Code	s in Boxes 🛔	
		A. Roll left and right: The ability to roll from lying on back to left and right side, and return to lying on back on the bed.
		B. Sit to lying: The ability to move from sitting on side of bed to lying flat on the bed.
		C. Lying to sitting on side of bed: The ability to move from lying on the back to sitting on the side of the bed and with no back support.
		D. Sit to stand: The ability to come to a standing position from sitting in a chair, wheelchair, or on the side of the bed.
		E. Chair/bed-to-chair transfer: The ability to transfer to and from a bed to a chair (or wheelchair).
		F. Toilet transfer: The ability to get on and off a toilet or commode.
		FF. Tub/shower transfer: The ability to get in and out of a tub/shower.
		G. Car transfer: The ability to transfer in and out of a car or van on the passenger side. Does not include the ability to open/close door or fasten seat belt.
		I. Walk 10 feet: Once standing, the ability to walk at least 10 feet in a room, corridor, or similar space.
		If admission performance is coded 07, 09, 10, or 88 - Skip to GG0170M, 1 step (curb)
		J. Walk 50 feet with two turns: Once standing, the ability to walk at least 50 feet and make two turns.
		K. Walk 150 feet: Once standing, the ability to walk at least 150 feet in a corridor or similar space.

Performance	Goal	
🚽 Enter Code	s in Boxes 🖌	
		L. Walking 10 feet on uneven surfaces: The ability to walk 10 feet on uneven or sloping surfaces (indoor or outdoor), such as turf or gravel.
		M. 1 step (curb): The ability to go up and down a curb and/or up and down one step. If admission performance is coded 07, 09, 10, or 88 → Skip to GG0170P, Picking up object
		N. 4 steps: The ability to go up and down four steps with or without a rail. If admission performance is coded 07, 09, 10, or 88
		0. 12 steps: The ability to go up and down 12 steps with or without a rail.
		P. Picking up object: The ability to bend/stoop from a standing position to pick up a small object, such as a spoon, from the floor.
		Q1. Does the resident use a wheelchair and/or scooter? 0. No → Skip to GG0130, Self Care (Discharge) 1. Yes → Continue to GG0170R, Wheel 50 feet with two turns
		R. Wheel 50 feet with two turns: Once seated in wheelchair/scooter, the ability to wheel at least 50 feet and make two turns.
		RR1. Indicate the type of wheelchair or scooter used. 1. Manual 2. Motorized
		S. Wheel 150 feet: Once seated in wheelchair/scooter, the ability to wheel at least 150 feet in a corridor or similar space.
		SS1. Indicate the type of wheelchair or scooter used. 1. Manual 2. Motorized

GG: Stand Alone OBRA Assessments

- Quarterly, Annual, Significant Change in Status, Significant Correction to prior assessment-Comprehensive or Quarterly.
- The look back is the ARD plus the 2 previous days (days 5, 6 and 7).
- Code the resident's usual performance. Use the 6-point scale or activity was not attempted codes.
- Complete only column 1.

GG IPA

- Interim Performance (Optional): The Interim Payment Assessment (IPA) is an optional assessment that may be completed by providers in order to report a change in the resident's PDPM classification.
- For Section GG on the IPA, providers will use the same 6-point scale and activity not attempted codes to complete the column "Interim Performance," which will capture the interim functional performance of the resident.
- The ARD for the IPA is determined by the provider, and the assessment period is the last 3 days (i.e., the ARD and the 2 calendar days prior). It is important to note that the IPA changes payment beginning on the ARD and continues until the end of the Medicare Part A stay or until another IPA is completed.
- The IPA does not affect the variable per diem schedule.

GG0130 Functional Abilities and Goals Self-Care OBRA/Interim

- Assessment period is the ARD plus 2 previous calendar days
- Complete only if A0310A= 02-06 and/or A0310B= 08
 - 02. Quarterly
 - 03. Annual
 - 04. Significant Change in Status
 - 05. Significant correction to prior comprehensive
 - 06. Significant correction to prior quarterly
 - 08. IPA- Interim Payment Assessment
- Code the resident's usual performance for each activity using the 6point scale. If an activity was not attempted, code the reason.

GG0130 Functional Abilities and Goals Self-Care OBRA/Interim

5. OBRA/Interim Performance Enter Codes in Boxes ↓	
	A. Eating: The ability to use suitable utensils to bring food and/or liquid to the mouth and swallow food and/or liquid once the meal is placed before the resident.
	B. Oral hygiene: The ability to use suitable items to clean teeth. Dentures (if applicable): The ability to insert and remove dentures into and from the mouth, and manage denture soaking and rinsing with use of equipment.
	C. Toileting hygiene: The ability to maintain perineal hygiene, adjust clothes before and after voiding or having a bowel movement. If managing an ostomy, include wiping the opening but not managing equipment.
	E. Shower/bathe self: The ability to bathe self, including washing, rinsing, and drying self (excludes washing of back and hair). Does not include transferring in/out of tub/shower.
	F. Upper body dressing: The ability to dress and undress above the waist; including fasteners, if applicable.
	G. Lower body dressing: The ability to dress and undress below the waist, including fasteners; does not include footwear.
	H. Putting on/taking off footwear: The ability to put on and take off socks and shoes or other footwear that is appropriate for safe mobility; including fasteners, if applicable.
	I. Personal hygiene: The ability to maintain personal hygiene, including combing hair, shaving, applying makeup, washing/drying face and hands (excludes baths, showers, and oral hygiene).

GG0170 Functional Abilities and Goals Mobility OBRA/Interim

Section GG: PPS Discharge or OBRA Discharge

- Part A PPS Discharge
- Completed when the Medicare Stay ends (as documented in A2400C, End of Most Recent Medicare Stay), either as <u>a standalone</u> <u>assessment</u> when the resident's Medicare Part A stay ends, but the resident remains in the facility,
- <u>Or may be combined with an OBRA Discharge</u> if the Medicare Part A stay ends on the day of, or the day before the resident's discharge date (please see Chapter 2 and Section A of the RAI Manual for additional details regarding the Part A PPS Discharge assessment).

GG0130 Functional Abilities and Goals Self-Care Discharge

- Assessment period is the last 3 days of the stay.
- Complete only if A0310F=10 or 11 or A0310H=1.
 - OBRA Return Not Anticipated, OBRA Return anticipated, Planned, Unplanned,
 - or End of PPS
- If A0310G is not= 2 (unplanned) and
- A0310H= 1 (SNF Part A PPS DC Assessment) and
- A2400C (end date of most recent Medicare stay) minus A2400B (Start date of most recent Medicare stay) is greater than 2 and
- A2105 is not= 4 (Short-Term General Hospital), the stay ends on A2400C (end date of most recent Medicare stay)
- For all other Discharge assessments, the stay ends on A2000 (Discharge Date)
- Code the resident's usual performance at the end of the stay for each activity using the 6-point scale. If an activity was not attempted at the end of the stay, code the reason.

GG0130 Functional Abilities and Goals Self-Care Discharge

3. Discharge Performance	
Enter Codes in Boxes ↓	
	A. Eating: The ability to use suitable utensils to bring food and/or liquid to the mouth and swallow food and/or liquid once the meal is placed before the resident.
	B. Oral hygiene: The ability to use suitable items to clean teeth. Dentures (if applicable): The ability to insert and remove dentures into and from the mouth, and manage denture soaking and rinsing with use of equipment.
	C. Toileting hygiene: The ability to maintain perineal hygiene, adjust clothes before and after voiding or having a bowel movement. If managing an ostomy, include wiping the opening but not managing equipment.
	E. Shower/bathe self: The ability to bathe self, including washing, rinsing, and drying self (excludes washing of back and hair). Does not include transferring in/out of tub/shower.
	F. Upper body dressing: The ability to dress and undress above the waist; including fasteners, if applicable.
	G. Lower body dressing: The ability to dress and undress below the waist, including fasteners; does not include footwear.
	H. Putting on/taking off footwear: The ability to put on and take off socks and shoes or other footwear that is appropriate for safe mobility; including fasteners, if applicable.
	I. Personal hygiene: The ability to maintain personal hygiene, including combing hair, shaving, applying makeup, washing/drying face and hands (excludes baths, showers, and oral hygiene).

GG0170 Functional Abilities and Goals Mobility Discharge

- Assessment period is the last 3 days of the stay.
- Complete only if A0310F=10 or 11 or A0310H=1.
 - OBRA Discharge Return Not Anticipated, OBRA Discharge Return Anticipated, Planned, Unplanned,
 - or End of PPS
- If A0310G is not= 2 (unplanned) and
- A0310H= 1 (SNF Part A PPS DC Assessment) and
- A2400C (end date of most recent Medicare stay) minus A2400B (Start date of most recent Medicare stay) is greater than 2 and
- A2105 is not= 4 (Short-Term General Hospital), the stay ends on A2400C (end date of most recent Medicare stay)
- For all other Discharge assessments, the stay ends on A2000 (Discharge Date)
- Code the resident's usual performance at the end of the stay for each activity using the 6point scale. If an activity was not attempted at the end of the stay, code the reason.

GG0170 Functional Abilities and Goals Mobility Discharge

A. Roll left and right: The ability to roll from lying on back to left and right side, and return to lying on back on the bed.
B. Sit to lying: The ability to move from sitting on side of bed to lying flat on the bed.
C. Lying to sitting on side of bed: The ability to move from lying on the back to sitting on the side of the bed and with no back support.
D. Sit to stand: The ability to come to a standing position from sitting in a chair, wheelchair, or on the side of the bed.
E. Chair/bed-to-chair transfer: The ability to transfer to and from a bed to a chair (or wheelchair).
F. Toilet transfer: The ability to get on and off a toilet or commode.
FF. Tub/shower transfer: The ability to get in and out of a tub/shower.
G. Car transfer: The ability to transfer in and out of a car or van on the passenger side. Does not include the ability to open/ close door or fasten seat belt.
I. Walk 10 feet: Once standing, the ability to walk at least 10 feet in a room, corridor, or similar space. If discharge performance is coded 07, 09, 10, or 88
J. Walk 50 feet with two turns: Once standing, the ability to walk at least 50 feet and make two turns. If discharge performance is coded 07, 09, 10, or 88
K. Walk 150 feet: Once standing, the ability to walk at least 150 feet in a corridor or similar space.

GG0170 Functional Abilities and Goals Mobility Discharge

3. Discharge Performance	
Enter Codes in Boxes	
	L. Walking 10 feet on uneven surfaces: The ability to walk 10 feet on uneven or sloping surfaces (indoor or outdoor), such as turf or gravel.
	M. 1 step (curb): The ability to go up and down a curb and/or up and down one step. If discharge performance is coded 07, 09, 10, or 88 → Skip to GG0170P, Picking up object
	N. 4 steps: The ability to go up and down four steps with or without a rail. If discharge performance is coded 07, 09, 10, or 88 → Skip to GG0170P, Picking up object
	0. 12 steps: The ability to go up and down 12 steps with or without a rail.
	P. Picking up object: The ability to bend/stoop from a standing position to pick up a small object, such as a spoon, from the floor.
	Q3. Does the resident use a wheelchair and/or scooter? 0. No → Skip to H0100, Appliances 1. Yes → Continue to GG0170R, Wheel 50 feet with two turns
	R. Wheel 50 feet with two turns: Once seated in wheelchair/scooter, the ability to wheel at least 50 feet and make two turns.
Î	RR3. Indicate the type of wheelchair or scooter used. 1. Manual 2. Motorized
	S. Wheel 150 feet: Once seated in wheelchair/scooter, the ability to wheel at least 150 feet in a corridor or similar space.
	SS3. Indicate the type of wheelchair or scooter used. 1. Manual 2. Motorized

PPS 5-day, IPA or Discharge Performance and OBRA Admission, Quarterly, Annual, SCSA, SCPC, SCPQ

- Code the resident's usual performance for each activity using the 6-point scale.
- Start with the least assistance provided, then step through the levels until you reach one that matches the resident's usual performance.
- If the activity was not attempted during the entire 3-day assessment period, indicate the reason. DO NOT DASH!
- Coding a dash (-) indicates "No information"
- Use of dashes in the Discharge Goals is allowed and does not affect the Annual Payment Update (APU), however, at least one discharge goal should be entered.
- Documentation in the medical record is used to support assessment coding of Section GG. Data entered should be consistent with the clinical assessment documentation in the resident's medical record.

F676 Activities of Daily Living/ Maintain Abilities

- Based on the comprehensive assessment of a resident and consistent with the resident's needs and choices, the facility must provide the necessary care and services to ensure that a resident's abilities in activities of daily living do not diminish unless circumstances of the individual's clinical condition demonstrate that such diminution was unavoidable. This includes the facility ensuring that:
- A resident is given the appropriate treatment and services to maintain or improve his or her ability to carry out the activities of daily living, including those specified in paragraph (b) of this section ...

F676 (continued)

- The facility must provide care and services for the following activities of daily living:
- Hygiene –bathing, dressing, grooming, and oral care,
- Mobility—transfer and ambulation, including walking,
- Elimination-toileting,
- Dining-eating, including meals and snacks,
- Communication, including
 - Speech,
 - Language,
 - Other functional communication systems.

F677 ADL Care Provided for Dependent Residents

• A resident who is unable to carry out activities of daily living receives the necessary services to maintain good nutrition, grooming, and personal and oral hygiene

Section H: Bladder and Bowel

- H0100A: Indwelling Catheter: may code even if in only a brief time during the look back period.
- H0300 and H0400 Urinary and Bowel Continence: If a resident has a change from occasional incontinent to frequently incontinent, this is a significant difference and needs to be investigated.
 - Incontinence: any urine touching the skin, willful or not. Peeing in a brief is not continence.

H0100.	Appliances					
Ļ	Check all that apply					
	A.	A. Indwelling catheter (including suprapubic catheter and nephrostomy tube)				
	B.	External catheter				
	C.	Ostomy (including urostomy, ileostomy, and colostomy)				
	D.	Intermittent catheterization				
	Ζ	None of the above				
H0200.	Uri	nary Toileting Program				
Enter Code	A.	 Has a trial of a toileting program (e.g., scheduled toileting, prompted voiding, or bladder training) been attempted on admission/entry or reentry or since urinary incontinence was noted in this facility? No → Skip to H0300, Urinary Continence Yes → Continue to H0200B, Response Unable to determine → Skip to H0200C, Current toileting program or trial 				
Enter Code	B.	Response - What was the resident's response to the trial program? 0. No improvement 1. Decreased wetness 2. Completely dry (continent) 9. Unable to determine or trial in progress				
Enter Code	C.	Current toileting program or trial - Is a toileting program (e.g., scheduled toileting, prompted voiding, or bladder training) currently being used to manage the resident's urinary continence? 0. No 1. Yes				
H0300.	Uri	inary Continence				
Enter Code	Uri	 nary continence - Select the one category that best describes the resident Always continent Occasionally incontinent (less than 7 episodes of incontinence) Frequently incontinent (7 or more episodes of urinary incontinence, but at least one episode of continent voiding) Always incontinent (no episodes of continent voiding) Not rated, resident had a catheter (indwelling, condom), urinary ostomy, or no urine output for the entire 7 days 				
H0400.	Bo	wel Continence				
Enter Code	Bo	 wel continence - Select the one category that best describes the resident Always continent Occasionally incontinent (one episode of bowel incontinence) Frequently incontinent (2 or more episodes of bowel incontinence, but at least one continent bowel movement) Always incontinent (no episodes of continent bowel movements) Not rated, resident had an ostomy or did not have a bowel movement for the entire 7 days 				
H0500.		wel Toileting Program				
Enter Code	ls a	toileting program currently being used to manage the resident's bowel continence? 0. No 1. Yes				
H0600.		wel Patterns				
Enter Code	Co	nstipation present? 0. No 1. Yes				

Toileting Programs

- Toileting programs must include:
- Evidence it was used during the look back period.
- Must be individualized, resident specific, based on an assessment.
- Evidence it had been communicated to the staff and the resident.
- Would expect to see flow records, a care plan and written evaluations of the resident response.
- This would include toileting trials.
- Guidance found in Appendix C.

F690 Bowel/Bladder Incontinence, Catheter, UTI

- The facility must ensure that a resident who is continent of bladder and bowel on admission receives services and assistance to maintain continence unless his or her clinical condition is or becomes such that continence is not possible to maintain.
- For a resident with fecal incontinence, based on the resident's comprehensive assessment, the facility must ensure that a resident who is incontinent of bowel receives appropriate treatment and services to restore as much normal bowel function as possible.

F691 Colostomy, Urostomy, or Ileostomy Care

• The facility must ensure that residents who require colostomy, urostomy, or ileostomy services, receive such care consistent with professional standards of practice, the comprehensive personcentered care plan, and the resident's goals and preferences.

Section I: Active Diagnoses <u>No new items for section I</u>

- The items in this section are intended to code diseases and conditions that have a direct relationship to current function, cognition, moods, behaviors, medical treatment, nursing monitoring, or risk of death.
- One of the important functions of the MDS assessment is to generate an updated, accurate picture of the resident's current health status.
- This section identifies active diseases and infections that drive the current care plan.
- Diagnoses need to have been noted by the physician within the past 60 days, and then narrow to the last 7 days if active (labs, monitoring, medications, therapy).

10020 Indicate the Resident's Primary Medical Condition Category PPS 5-day Assessment and OBRA Assessments

- I0020: Indicate the resident's primary medical condition category is coded when A0310A= 01, 02, 03, 04, 05, 06, A0310B=01
- The *primary reason* for admission will determine the clinical grouping for each resident.
- Indicate the resident's primary medical condition category that best describes the primary reason for the stay; then proceed to IO020B and enter the International Classification of Diseases (ICD) code for that condition, including the decimal.
- This is an active diagnosis indicating the primary reason for the SNF stay. Examples start on RAI page I-3

Section I: Active Diagnoses

There are two look-back periods for this section:

• Diagnosis identification (Step 1) is a 60-day look-back period.

1. **Identify diagnoses:** The disease conditions in this section require a physician-documented diagnosis in the **last 60 days.**

Medical record sources for physician diagnoses include progress notes, the most recent history and physical, transfer documents, discharge summaries, diagnosis/ problem list, and other resources as available. If a diagnosis/problem list is used, only diagnoses confirmed by the physician should be entered.

• Diagnosis status: Active or Inactive (Step 2) is a 7-day look-back period (except for Item I2300 UTI).

2. **Determine whether diagnoses are active:** Once a diagnosis is identified, it must be determined if the diagnosis is **active.** Active diagnoses are diagnoses that have a **direct relationship** to the resident's current functional, cognitive, or mood or behavior status, medical treatments, nursing monitoring, or risk of death during the 7-day look-back period.

Do not include conditions that have been resolved, do not affect the resident's current status, or do not drive the resident's plan of care during the 7-day look-back period, as these would be considered inactive diagnoses.

RAI page I-7

Section I: Active Diagnoses

- I2300 Urinary Tract Infection (UTI) (Last 30 Days) includes Item I2300 Urinary tract infection (UTI): Code only if both of the following are met in the last 30 days:
 - 1. It was determined that the resident had a UTI using evidence-based criteria such as McGeer, NHSN, or Loeb in the last 30 days, AND
 - 2. A physician documented UTI diagnosis (or by a nurse practitioner, physician assistant, or clinical nurse specialist if allowable under state licensure laws) in the last 30 days.
- If the diagnosis of UTI was made prior to the resident's admission, entry, or reentry into the facility, it is not necessary to obtain or evaluate the evidence-based criteria used to make the diagnosis in the prior setting. A documented physician diagnosis of UTI prior to admission is acceptable.

QSO-23-05-NH

Updates to the Nursing Home Care Compare Website and Five Star Quality Rating System:

Adjusting Quality Measure Ratings Based on Erroneous Schizophrenia Coding, and Posting Citations Under Dispute

https://www.cms.gov/files/document/qso-23-05-nh.pdf 1/18/2023

16000 Schizophrenia

Memorandum Summary Adjusting Quality Measure Ratings:

CMS will be conducting audits of schizophrenia coding in the Minimum Data Set data and based upon the results, adjust the Nursing Home Care Compare quality measure star ratings for facilities whose audits reveal inaccurate coding.

CMS is concerned that some nursing homes have erroneously coded residents as having schizophrenia, which can mask the facilities' true rate of antipsychotic medication use.

Facilities that have coding inaccuracies identified through the schizophrenia MDS audit will have their QM ratings adjusted as follows:

• The Overall QM and long stay QM ratings will be downgraded to one star for six months (this drops the facility's overall star rating by one star).

- The short stay QM rating will be suppressed for six months.
- The long stay antipsychotic QM will be suppressed for 12 months.

Section I: Active Diagnoses

- I5100 Quadriplegia. No functional use of all four limbs. Use only if spinal cord injury. Spinal cord injury must be a primary condition and not a result of another condition. DO NOT code functional quad here. If the resident has dementia or spastic quadriplegia due to cerebral palsy, stroke, contractures, brain disease the primary diagnosis should be coded and not the resulting paralysis or paresis from that condition.
- I5600 Malnutrition. Requires physician diagnosis documentation.
- 18000 Additional active diagnoses.

Section I - Active Diagnoses

10020. Indicate the resident's primary medical condition category

Complete only if A0310B = 01 or if state requires completion with an OBRA assessment

Indicate the resident's primary medical condition category that best describes the primary reason for admission

- 01. Stroke
- 02. Non-Traumatic Brain Dysfunction
- 03. Traumatic Brain Dysfunction
- 04. Non-Traumatic Spinal Cord Dysfunction
- 05. Traumatic Spinal Cord Dysfunction
- 06. Progressive Neurological Conditions
- 07. Other Neurological Conditions
- 08. Amputation
- 09. Hip and Knee Replacement
- 10. Fractures and Other Multiple Trauma
- 11. Other Orthopedic Conditions
- 12. Debility, Cardiorespiratory Conditions
- 13. Medically Complex Conditions

10020B. ICD Code

Section I - Active Diagnoses

Active Diagnoses in the last 7 days - Check all that apply

Diagnoses listed in parentheses are provided as examples and should not be considered as all-inclusive lists

Cancer

I0100. Cancer (with or without metastasis)

Heart/Circulation

- I0200. Anemia (e.g., aplastic, iron deficiency, pernicious, and sickle cell)
- I0300. Atrial Fibrillation or Other Dysrhythmias (e.g., bradycardias and tachycardias)
- I0400. Coronary Artery Disease (CAD) (e.g., angina, myocardial infarction, and atherosclerotic heart disease (ASHD))
- I0500. Deep Venous Thrombosis (DVT), Pulmonary Embolus (PE), or Pulmonary Thrombo-Embolism (PTE)
- I0600. Heart Failure (e.g., congestive heart failure (CHF) and pulmonary edema)
- I0700. Hypertension
- I0800. Orthostatic Hypotension
 I0900. Peripheral Vascular Dise
 - 10900. Peripheral Vascular Disease (PVD) or Peripheral Arterial Disease (PAD)

Gastrointestinal

- I1100. Cirrhosis
- I1200. Gastroesophageal Reflux Disease (GERD) or Ulcer (e.g., esophageal, gastric, and peptic ulcers)
- I1300. Ulcerative Colitis, Crohn's Disease, or Inflammatory Bowel Disease

Genitourinary

- I1400. Benign Prostatic Hyperplasia (BPH)
- I1500. Renal Insufficiency, Renal Failure, or End-Stage Renal Disease (ESRD)
- I1550. Neurogenic Bladder
- I1650. Obstructive Uropathy

Infections

- I1700. Multidrug-Resistant Organism (MDRO)
- I2000. Pneumonia
- I2100. Septicemia
- I2200. Tuberculosis
- I2300. Urinary Tract Infection (UTI) (LAST 30 DAYS)
- I2400. Viral Hepatitis (e.g., Hepatitis A, B, C, D, and E)
- I2500. Wound Infection (other than foot)

Metabolic

- I2900. Diabetes Mellitus (DM) (e.g., diabetic retinopathy, nephropathy, and neuropathy)
- I3100. Hyponatremia
- I3200. Hyperkalemia
- I3300. Hyperlipidemia (e.g., hypercholesterolemia)
 I3400. Thyroid Disorder (e.g., hypothyroidism, hypercholesterolemia)
- I3400. Thyroid Disorder (e.g., hypothyroidism, hyperthyroidism, and Hashimoto's thyroiditis)

Musculoskeletal

- I3700. Arthritis (e.g., degenerative joint disease (DJD), osteoarthritis, and rheumatoid arthritis (RA))
- I3800. Osteoporosis
- I3900. Hip Fracture any hip fracture that has a relationship to current status, treatments, monitoring (e.g., sub-capital fractures, and fractures of the trochanter and femoral neck)
- I4000. Other Fracture

Neurological

- I4200. Alzheimer's Disease
- I4300. Aphasia
- I4400. Cerebral Palsy
- 4500. Cerebrovascular Accident (CVA), Transient Ischemic Attack (TIA), or Stroke
- I4800. Non-Alzheimer's Dementia (e.g. Lewy body dementia, vascular or multi-infarct dementia; mixed dementia; frontotemporal dementia such as Pick's disease; and dementia related to stroke, Parkinson's or Creutzfeldt-Jakob diseases)

Neurological Diagnoses continued on next page

Active Diagnoses in the last 7 days - Check all that apply Diagnoses listed in parentheses are provided as examples and should not be considered as all-inclusive lists

Neurological - Continued

- I4900. Hemiplegia or Hemiparesis
- I5000. Paraplegia
- I5100. Quadriplegia
- I5200. Multiple Sclerosis (MS)
- I5250. Huntington's Disease
- I5300. Parkinson's Disease
- I5350. Tourette's Syndrome
- I5400. Seizure Disorder or Epilepsy
- I5500. Traumatic Brain Injury (TBI)

Nutritional

I5600. Malnutrition (protein or calorie) or at risk for malnutrition

Psychiatric/Mood Disorder

- I5700. Anxiety Disorder
- I5800. Depression (other than bipolar)
- I5900. Bipolar Disorder
- I5950. Psychotic Disorder (other than schizophrenia)
- I6000. Schizophrenia (e.g., schizoaffective and schizophreniform disorders)
- I6100. Post Traumatic Stress Disorder (PTSD)

Pulmonary

- I6200. Asthma, Chronic Obstructive Pulmonary Disease (COPD), or Chronic Lung Disease (e.g., chronic bronchitis and restrictive lung diseases such as asbestosis)
- I6300. Respiratory Failure

Vision

I6500. Cataracts, Glaucoma, or Macular Degeneration

None of Above

I7900. None of the above active diagnoses within the last 7 days

Other

18000. Additional active diagnoses

Enter diagnosis on line and ICD code in boxes. Include the decimal for the code in the appropriate box.

Section J: Health Conditions

- The intent of the items in this section is to document a number of health conditions that impact the resident's functional status and quality of life. The items include an assessment of pain which uses an interview with the resident or staff if the resident is unable to participate. The pain items assess the presence of pain, pain frequency, effect on function, intensity, management and control. Other items in the section assess dyspnea, tobacco use, prognosis, problem conditions, falls, prior surgery, and surgery requiring active SNF care.
- Item J2100 Recent Surgery Requiring Active SNF Care- completed for 5-day PPS and OBRA assessments.
- J2300 J5000 Surgical Procedures- complete only if J2100= Yes.
- Documentation is needed to justify answers.

JO100: Pain Management: Scheduled and PRN Pain Medication, Non-pharmacological Pain Interventions

- 5-day look back period
- Data to answer the 6 questions in this item come from the medical record review and interviews
- Interventions are included as part of a care plan
- There must be documentation that the intervention(s) were received, and results assessed
- Interventions do not have to be successful to be counted
- F697 SOM Appendix PP, Pain Management

Non-Medication Pain Interventions

- Scheduled and implemented non-pharmacological interventions include, but are not limited to, biofeedback, application of heat/cold, massage, physical therapy, nerve block, stretching and strengthening exercises, chiropractic, electrical stimulation, radiotherapy, ultrasound and acupuncture.
- Herbal or alternative medicine products are not included in this category.
- Alternatives need to be care planned and evaluated for effectiveness.

J0300-J0600: Resident Pain Interview

- The look-back period on these items is 5 days. Because this item asks the resident to recall pain during the past 5 days, this assessment should be conducted close to the end of the 5- day look-back period; preferably on the day before, or the day of the ARD. This should more accurately capture pain episodes that occur during the 5-day look-back period.
- Attempt to conduct the interview with all residents
- The Pain Interview is not contingent upon B0700.
- Use the resident's preferred language. If not verbal, offer writing, sign or cue cards.
- Use the resident's terminology for pain-such as hurting, aching, burning.
- Code for the presence or absence of pain regardless of main management efforts.
- The resident's reported pain scale is independent of the medication received during the look-back.

J0100. P	J0100. Pain Management - Complete for all residents, regardless of current pain level					
At any time	e in the last 5 days, has the resident:					
Enter Code	A. Received scheduled pain medication regimen?					
	0. No					
	1. Yes					
Enter Code	B. Received PRN pain medications OR was offered and declined?					
	0. No					
	1. Yes					
Enter Code	C. Received non-medication intervention for pain?					
	0. No					
	1. Yes					

J0200. Should Pain Assessment Interview be Conducted?

Attempt to conduct interview with all residents. If resident is comatose, skip to J1100, Shortness of Breath (dyspnea)

0. No (resident is rarely/never understood) → Skip to and complete J0800, Indicators of Pain or Possible Pain

1. Yes -> Continue to J0300, Pain Presence

		 Indicatoria or paint or possible paint observed dany

Other Health Conditions J1100. Shortness of Breath (dyspnea) Check all that apply A. Shortness of breath or trouble breathing with exertion (e.g., walking, bathing, transferring) B. Shortness of breath or trouble breathing when sitting at rest C. Shortness of breath or trouble breathing when lying flat Z None of the above J1300. Current Tobacco Use Enter Code 0. No 1. Yes J1400. Prognosis Does the resident have a condition or chronic disease that may result in a life expectancy of less than 6 months? (Requires physician Enter Code documentation) No 0 1. Yes J1550. Problem Conditions Check all that apply A. Fever B. Vomiting C. Dehydrated D. Internal bleeding

Z None of the above

J1100 Shortness of Breath

Item Rationale

- Shortness of breath can be an extremely distressing symptom to residents and lead to decreased interaction and quality of life.
- Some residents compensate for shortness of breath by limiting activity. They sometimes compensate for shortness of breath when lying flat by elevating the head of the bed and do not alert caregivers to the problem.
- Shortness of breath can be an indication of a change in condition requiring further assessment and should be explored.
- The care plan should address underlying illnesses that may exacerbate symptoms of shortness of breath as well as symptomatic treatment for shortness of breath when it is not quickly reversible.

J1100 Shortness of Breath

Steps for Assessment

- Interview the resident about shortness of breath.
- If the resident is not experiencing shortness of breath or trouble breathing during the interview, ask the resident if shortness of breath occurs when he or she engages in certain activities.
- Review the medical record for staff documentation of the presence of shortness of breath or trouble breathing.
- Observe the resident for shortness of breath or trouble breathing.
- If shortness of breath or trouble breathing is observed, note whether it occurs with certain positions or activities.

F689 Free of Accidents Hazards/ Supervision/Devices

- The facility must ensure that –
- The resident environment remains as free of accident hazards as is possible; and
- Each resident receives adequate supervision and assistance devices to prevent accidents.
- The intent of this requirement is to ensure the facility provides an environment that is free from accident hazards over which the facility has control and provides supervision and assistive devices to each resident to prevent avoidable accidents. This includes:
 - Identifying hazard(s) and risk(s);
 - Evaluating and analyzing hazard(s) and risk(s);
 - Implementing interventions to reduce hazard(s) and risk(s); and
 - Monitoring for effectiveness and modifying interventions when necessary.

J1300: Current Tobacco Use

Includes tobacco used in any form

• Does not include vaping, nicotine patches

• Planning for Care

- This item opens the door to negotiation of a plan of care with the resident that includes support for smoking cessation.
- If cessation is declined, a care plan that allows safe and environmental accommodation of resident preferences is needed.

J1400: Prognosis

- Coding Instructions
 - Code 0, no: if the medical record does not contain physician documentation that the resident is terminally ill and the resident is not receiving hospice services.
 - Code 1, yes: if the medical record includes physician documentation:
 - that the resident is terminally ill; or
 - the resident is receiving hospice services.

J1550 Other Health Conditions

A. Fever

Defined as 2.4 degrees Fahrenheit higher than baseline. A temp of 100.4 F on admission is considered a fever. Important to obtain baseline temperature. Establishment of a baseline temperature is important.

B. Vomiting

C. Dehydrated **Does require documentation of 2 or more of the 3 potential dehydration** *indicators listed:*

1) Usually takes in less than 1500 cc of fluid daily.

2) One or more clinical signs of dehydration, including but not limited to dry mucous membranes, poor skin turgor, cracked lips, thirst, sunken eyes, dark urine, new onset or increased confusion, fever, abnormal lab values, etc.

3) Fluid loss that exceeds amount of fluids taken in.

D. Internal Bleeding

Do not include controlled nose bleeds, menses, UA with small blood. May include hematoma or ICH if can be proved it occurred during the lookback period.

Z. None of the above

- Documentation supports the coding decisions.
- Coding Tips J-28 through J-30

J1700: Fall History on Admission or Reentry

- Falls, especially a recent fall, recurrent falls, and falls with significant injury are the most important predictors of risk for future falls,
- Ask the resident and family/significant other about falls in the last 6 months.
- Review inter-facility transfer information.
- Review all relevant medical records for evidence of one or more falls in the previous 6 months.

J1800: Falls Since Admission/Entry or Prior Assessment (OBRA or Scheduled PPS)

- If this is the first assessment/entry or reentry (A0310E = 1), review the medical record for the time period from the admission date to the ARD.
- If this is not the first assessment/entry or reentry (A0310E = 0), the review period is from the day after the ARD of the last MDS assessment to the current ARD.
- Any fall since the last MDS, even if it occurred while out in the community, in an acute hospital, or in the nursing home.
- Review incident reports, fall logs and the medical record.
- Ask the resident and family about falls during the look-back period even if not documented in the medical record.

What are you calling a fall?

- An unintentional change in position coming to rest on the ground, floor or onto the next lower surface.
- Falls are not a result of an overwhelming external force.
- An intercepted fall occurs is still considered a fall.
- A resident found of the floor or ground without knowledge of how they got there, is a fall.
- CMS understands that challenging a resident's balance and training him/her to recover from a loss of balance is an intentional therapeutic intervention and does not consider anticipated losses of balance that occur during supervised therapeutic interventions as intercepted falls.

J1900: Falls Since Admission or Most Recent MDS Without or With Injury

- J1900A-No injury
 - No evidence of injury seen; no c/o pain or injury, no change in resident behavior after the fall.
- J1900B-Injury (except major)
 - Skin tears, abrasions, lacerations, superficial bruises, hematomas, and sprains; or any fall-related injury that causes the resident to complain of pain.
- J1900C-Major Injury
 - Bone fractures, joint dislocations, closed head injuries with altered consciousness, subdural hematoma.

J1700. Fall History on Admission/Entry or Reentry Complete only if A0310A = 01 or A0310E = 1 Enter Code A. Did the resident have a fall any time in the last month prior to admission/entry or reentry? 0. No 1. Yes Unable to determine Enter Code B. Did the resident have a fall any time in the last 2-6 months prior to admission/entry or reentry? No 0 1. Yes Unable to determine Enter Code Did the resident have any fracture related to a fall in the 6 months prior to admission/entry or reentry? C. No 0. 1. Yes Unable to determine J1800. Any Falls Since Admission/Entry or Reentry or Prior Assessment (OBRA or Scheduled PPS), whichever is more recent Has the resident had any falls since admission/entry or reentry or the prior assessment (OBRA or Scheduled PPS), whichever is more Enter Code recent? No → Skip to J2000, Prior Surgery

Yes → Continue to J1900, Number of Falls Since Admission/Entry or Reentry or Prior Assessment (OBRA or Scheduled PPS)

Enter Code	Did the resident have a major surgical procedure during the prior inpatient hospital stay that requires active care during the SNF stay? 0. No 1. Yes 8. Unknown

Language at J1900

- It is important to ensure the accuracy of the level of injury resulting from a fall. Since injuries can present themselves later than the time of the fall, the assessor may need to look beyond the ARD to obtain the accurate information for the complete picture of the fall that occurs in the look back of the MDS.
- Review any follow-up medical information received pertaining to the fall, even if this information is received after the ARD (e.g., emergency room x-ray, MRI, CT scan results), and ensure that this information is used to code the assessment.
- If the level of injury directly related to a fall that occurred during the look-back period is identified after the ARD and is at a different injury level than what was originally coded on an assessment that was submitted to the QIES ASAP, the assessment must be modified to update the level of injury that occurred with that fall.

J2000-5000: Prior Surgery, Recent Surgery, and Surgical Procedures

- J2000: Only completed for 5-day PPS assessments
 - Generally, major surgery for item J2000 refers to a procedure that meets the following criteria:
 - 1. the resident was an inpatient in an acute care hospital for at least one day in the 100 days prior to admission to the SNF
 - 2. the surgery carried some degree of risk to the resident's life or the potential for severe disability.
- J2100: Recent Surgery Requiring Active SNF Care completed on PPS 5-day and OBRA assessments.
- Need to determine if this surgery requires active care during this stay.
- J2300 through J5000 Surgical Procedures, completed only if J2100= 1 (Yes). Documentation in the medical record is required to justify answers.

J2000.	Prior Surgery - Complete only if A0310B = 01
Enter Code	Did the resident have major surgery during the 100 days prior to admission? 0. No 1. Yes 8. Unknown
J2100.	Recent Surgery Requiring Active SNF Care - Complete only if A0310B = 01 or if state requires completion with an OBRA assessment
Enter Code	Did the resident have a major surgical procedure during the prior inpatient hospital stay that requires active care during the SNF stay? 0. No 1. Yes 8. Unknown

Section J: J2100 Recent Surgery Requiring Active SNF Care

- Complete only for PPS 5-day or OBRA assessments.
- For PPS: Review the resident's medical record to determine whether the resident had major surgery during the inpatient hospital stay that immediately preceded the resident's Part A admission. Did that surgery require active care?
- For OBRA: Was the resident an inpatient in an acute care hospital for at least one day, and the surgery carried some degree of risk to the resident's life or the potential for severe disability within 30 days of the ARD. Did that surgery require active care? RAI page J-38
- Documentation is needed to justify answers.
- If 1. Yes, proceed to J2300-J5000.

Section J - Health Conditions

Surgical Procedures - Complete only if J2100 = 1

Check all that apply

Major Joint Replacement

- J2300. Knee Replacement partial or total
- J2310. Hip Replacement partial or total
- J2320. Ankle Replacement partial or total
- J2330. Shoulder Replacement partial or total

Spinal Surgery

- J2400. Involving the spinal cord or major spinal nerves
- J2410. Involving fusion of spinal bones
- J2420. Involving lamina, discs, or facets
- J2499. Other major spinal surgery

Other Orthopedic Surgery

- J2500. Repair fractures of the shoulder (including davide and scapula) or arm (but not hand)
- J2510. Repair fractures of the pelvis, hip, leg, knee, or ankle (not foot)
- J2520. Repair but not replace joints
- J2530. Repair other bones (such as hand, foot, jaw)
- J2599. Other major orthopedic surgery

Neurological Surgery

- J2600. Involving the brain, surrounding tissue or blood vessels (excludes skull and skin but includes cranial nerves)
- J2610. Involving the peripheral or autonomic nervous system open or percutaneous
- J2620. Insertion or removal of spinal or brain neurostimulators, electrodes, catheters, or CSF drainage devices
- J2699. Other major neurological surgery

Cardiopulmonary Surgery

- J2700. Involving the heart or major blood vessels open or percutaneous procedures
- J2710. Involving the respiratory system, including lungs, bronchi, trachea, larynx, or vocal cords open or endoscopic
- J2799. Other major cardiopulmonary surgery

Genitourinary Surgery

- J2800. Involving genital systems (such as prostate, testes, ovaries, uterus, vagina, external genitalia)
- J2810. Involving the kidneys, ureters, adrenal glands, or bladder open or laparoscopic (includes creation or removal of nephrostomies or urostomies)
- J2899. Other major genitourinary surgery

Other Major Surgery

- J2900. Involving tendons, ligaments, or muscles
- J2910. Involving the gastrointestinal tract or abdominal contents from the esophagus to the anus, the biliary tree, gall bladder, liver, pancreas, or spleen open or laparoscopic (including creation or removal of ostomies or percutaneous feeding tubes, or hernia repair)
- J2920. Involving the endocrine organs (such as thyroid, parathyroid), neck, lymph nodes, or thymus open
- J2930. Involving the breast
- J2940. Repair of deep ulcers, internal brachytherapy, bone marrow or stem cell harvest or transplant
- J5000. Other major surgery not listed above

Thank you!

• Thank you for all the work you do to ensure the care, comfort and safety of our most vulnerable in society. This is not an easy job you do, and it must come from the heart. Weariness and frustration can easily become your best friends, but don't let them take over! Know that you are not alone in your work. Reach out, make friends and contacts who will encourage your soul. Please know that you are welcome to call or email me

anytime. Sincerely, Janet
