10A NCAC 13J .1202 is readopted with changes as published in 31:24 NCR 2442-2448 as follows:

10A NCAC 13J .1202 CASE REVIEW AND PLAN OF CARE

(a) The plan of care shall be established in collaboration with the client and incorporated in the service record. The plan of care must shall be reviewed at least every three months quarterly every ninety days by the appropriate agency professional health care practitioner and revised as needed based on the client's needs. If the client record is thinned, purged, the original and updated authorization or orders for care as appropriate shall be maintained in the client's current record. All records shall be readily available to Department staff for review if requested. [If physician orders are needed for the services,] a home care health professional [The] the health care practitioner shall notify the physician of any changes in the client's condition which that indicates the need for altering the plan of care or for terminating services. Based upon the findings of the client assessment, the plan of care shall include at a minimum the following:

1. type of service(s) and care to be delivered;
2. frequency and duration of service;
3. activity restrictions;
4. safety measures; and
5. service objectives and goals.

(b) Where applicable, the plan of care shall include, but is not limited to:

1. equipment required;
2. functional limitations;
3. rehabilitation potential;
4. diet and nutritional needs;
5. medications and treatments;
6. specific therapies;
7. pertinent diagnoses; and
8. prognosis.

(c) So long as ongoing hands-on care is being provided to a client, a registered nurse, social worker or other appropriate professional shall visit the client in the client's residence at least quarterly to assess the client's general condition, progress and response to services provided. Documentation of these visits shall be maintained in the client's service record.

(d) If the same professional health care practitioner is assigned responsibility for two or more of the following, these functions may be conducted during the same home visit:

1. quarterly assessment of client's condition, progress, and response; response every ninety days;
2. provision of regularly scheduled professional services; or
3. supervision of in-home aide or other allied health personnel; in-home care provider caregiver.
