3	10A NCAC 15 .1	908 CALIBRATION OF SURVEY INSTRUMENTS AND DOSIMETRY SYSTEMS			
4	(a) Administrative: Survey Instruments, when employed by the licensee to perform surveys required by this Section:				
5	(1)	The licensee shall ensure that the survey instruments used to show compliance with this Section			
6		have been calibrated before first use, at intervals not to exceed twelve (12) months and following			
7		repair.			
8	(2)	To satisfy the requirements of Subparagraph (a)(1) of this Rule, the licensee shall:			
9		(A) Calibrate all scale readings up to 10 mSv (1000 mrem) per hour with an appropriate			
10		radiation source that is traceable to the National Institute of Standards and Technology;			
11		(B) Calibrate at least two (2) points on each scale to be calibrated. These points should be at			
12		approximately 1/3 and 2/3 of full-scale; and			
13	<u>(3)</u>	To satisfy the requirements of Subparagraph (a)(2) of this Rule, the licensee [shall:] shall consider			
14		a point as calibrated if the indicated dose rate differs from the calculated dose rate by not more than			
15		20 percent.			
16		[(A) Consider a point as calibrated if the indicated dose rate differs from the calculated dose			
17		rate by not more than 10 percent; and			
18		(B) Consider a point as calibrated if the indicated dose rate differs from the calculated dose			
19		rate by not more than 20 percent if a correction factor or graph is conspicuously attached			
20		to the instrument.			
21	<u>(4)</u>	The licensee shall retain a record of each calibration required in Paragraph (a) of this Rule for three			
22		(3) years. The record shall include:			
22					
		(A) A description of the calibration procedure; and			
23		 (A) A description of the calibration procedure; and (B) A description of the source used and the certified dose rates from the source, and the rates 			
23 24					
23 24 25		(B) A description of the source used and the certified dose rates from the source, and the rates			
23 24 25 26		(B) A description of the source used and the certified dose rates from the source, and the rates indicated by the instrument being calibrated, the correction factors deduced from the			
23 24 25 26 27	(5)	(B) A description of the source used and the certified dose rates from the source, and the rates indicated by the instrument being calibrated, the correction factors deduced from the calibration data, the signature of the individual who performed the calibration, and the date			
23 24 25 26 27 28	<u>(5)</u>	(B) A description of the source used and the certified dose rates from the source, and the rates indicated by the instrument being calibrated, the correction factors deduced from the calibration data, the signature of the individual who performed the calibration, and the date of calibration.			
23 24 25 26 27 28 29	(5)	(B) A description of the source used and the certified dose rates from the source, and the rates indicated by the instrument being calibrated, the correction factors deduced from the calibration data, the signature of the individual who performed the calibration, and the date of calibration. The licensee may obtain the services of individuals licensed by the Agency, the US Nuclear			
23 24 25 26 27 28 29 30	<u>(5)</u>	(B) A description of the source used and the certified dose rates from the source, and the rates indicated by the instrument being calibrated, the correction factors deduced from the calibration data, the signature of the individual who performed the calibration, and the date of calibration. The licensee may obtain the services of individuals licensed by the Agency, the US Nuclear Regulatory Commission or an Agreement State to perform calibrations of survey instruments.			
23 24 25 26 27 28 29 30 31	<u>(5)</u>	(B) A description of the source used and the certified dose rates from the source, and the rates indicated by the instrument being calibrated, the correction factors deduced from the calibration data, the signature of the individual who performed the calibration, and the date of calibration. The licensee may obtain the services of individuals licensed by the Agency, the US Nuclear Regulatory Commission or an Agreement State to perform calibrations of survey instruments. Records of calibrations that contain information required by Paragraph [(4)](c) of this Rule shall be			
23 24 25 26 27 28 29 30 31		(B) A description of the source used and the certified dose rates from the source, and the rates indicated by the instrument being calibrated, the correction factors deduced from the calibration data, the signature of the individual who performed the calibration, and the date of calibration. The licensee may obtain the services of individuals licensed by the Agency, the US Nuclear Regulatory Commission or an Agreement State to perform calibrations of survey instruments. Records of calibrations that contain information required by Paragraph [(d)](c) of this Rule shall be maintained by the licensee.			
223 224 225 226 227 228 229 330 331 332 333		(B) A description of the source used and the certified dose rates from the source, and the rates indicated by the instrument being calibrated, the correction factors deduced from the calibration data, the signature of the individual who performed the calibration, and the date of calibration. The licensee may obtain the services of individuals licensed by the Agency, the US Nuclear Regulatory Commission or an Agreement State to perform calibrations of survey instruments. Records of calibrations that contain information required by Paragraph [(d)(c) of this Rule shall be maintained by the licensee. The record must include the model and serial number of the instrument, the date of the calibration, the results of the calibration, and the name of the individual who performed the calibration.			
223 224 225 226 227 228 229 330 331 332 333 334	<u>(6)</u>	(B) A description of the source used and the certified dose rates from the source, and the rates indicated by the instrument being calibrated, the correction factors deduced from the calibration data, the signature of the individual who performed the calibration, and the date of calibration. The licensee may obtain the services of individuals licensed by the Agency, the US Nuclear Regulatory Commission or an Agreement State to perform calibrations of survey instruments. Records of calibrations that contain information required by Paragraph [(d)](c) of this Rule shall be maintained by the licensee. The record must include the model and serial number of the instrument, the date of the calibration, the results of the calibration, and the name of the individual who performed the calibration.			

1		(A)	The system must have been calibrated using a system or source traceable to the National
2			Institute of Standards and Technology and published protocols accepted by nationally
3			recognized bodies; or by a calibration laboratory accredited by the American Association
4			of Physicists in Medicine. The calibration must have been performed within the previous
5			2 years and after any servicing that may have affected system calibration; or
6		(B)	The system must have been intercompared with another dosimetry system that was
7			calibrated within the previous 2 years by the National Institute of Standards and
8			Technology or by a calibration laboratory accredited by the American Association of
9			Physicists in Medicine. The results of the intercomparison must indicate that the calibration
10			factor of the licensee's system had not changed by more than 2 percent.
11	(2)	A licer	see shall retain a record of the calibration, intercomparison, and comparisons of its dosimetry
12		equipn	nent done for three years after the record is made. For each calibration, intercomparison, or
13		compa	rison, the record must include:
14		(A)	The date;
15		<u>(B)</u>	The manufacturer's name, model numbers and serial numbers of the instruments that were
16			calibrated, intercompared, or compared as required by Parts (1)(A) or (1)(B) of this
17			Paragraph;
18		<u>(C)</u>	The correction factor that was determined from the calibration or comparison or the
19			apparent correction factor that was determined from an intercomparison; and
20	(c) The names of	of the ind	lividuals who performed the calibration, intercomparison, or comparison.
